RESULT ANALYSIS: B.Com (Hons.)
Academic year 2016-17

The results analysis of the **B.Com (Hons.)** students is a blend of students' performance. Few semesters have witnessed better results than others. The results have also varied with distinct subjects. Some subjects have shown a bias scoring pattern of students' performance. Whereas several subjects have shown an evenly scattered marks' pattern. After gathering the data of students' marks on yearly basis, they have been detailed further. It has also been observed that a students' performance may pragmatically be analyzed by classifying them into three groups as 0-50%, 50-60% and 60-100%. Further, the number of students who have appeared for the examination have also been listed in the table.

The result has been discussed in the tabular layout in regards to the marks secured pattern of students' examination results. The percentage approach has been considered to analyze the result where the number of students has been categorically listed among three groups. The students' performance as percentage number of students has been highlighted among the same three groups.

The result analysis key highlights are:

1) In the course of B.Com (Hons.), 160, 190 and 231 students have enrolled for examination in first, second and third year respectively in the academic year 2016-17.

2) Over 80% students have secured in the range 60-100% in the following subjects: *Financial Accounting, Personal Tax Planning, E-Commerce, Auditing, International Business, Business Communication and Fundamentals of Investment.*

3) The three subjects namely: *Introductory Macro Economics*(with only 26.25% students scoring First Division), *Indian Economy-I*(35.79% students scoring First Division) and *Business Mathematics*(39.47% students scoring First Division) have relatively shown average performance of the students. Hence, the results have a scope to improve for these subjects.

4) The students' academic performance has been better in semester V and VI than the other semesters.

S.No.	Semester	No. of Students	Subject	Subject Code	60-100 %	50-60 %	0-50 %	Absent %	Total %

RESULT ANALYSIS: B.Com (Prog)
Academic year 2016-17

The results analysis of the **B.Com (Prog.)** students is a blend of students' performance. Few semesters have witnessed better results than others. The results have also varied with distinct subjects. Some subjects have shown a bias scoring pattern of students' performance. Whereas several subjects have shown an evenly scattered marks' pattern. After gathering the data of students' marks on yearly basis, they have been detailed further. It has also been observed that a students' performance may pragmatically be analyzed by classifying them into three groups as 0-50%, 50-60% and 60-100%. Further, the number of students who have appeared for the examination have also been listed in the table.

The result has been discussed in the tabular layout in regards to the marks secured pattern of students' examination results. The percentage approach has been considered to analyze the result where the number of students has been categorically listed among three groups. The students' performance as percentage number of students has been highlighted among the same three groups.

The result analysis key highlights are:

1) In the course of B.Com (Prog.), 167, 156 and 178 students have enrolled for examination in first, second and third year respectively in the academic year 2016-17.

2) Most of the enrolled students have secured in the range 60-100% marks in the following subjects: *Computer Application in Business, Corporate Governance, Business Ethics and CSR, Marketing Management, Business Environment and Human Resource management.*

3) The three subjects namely: *Business Law, Business Mathematics and Statistics and Corporate Accounting* have relatively shown underperformance of the students than the other subjects. In these subjects, not more than *33.53%, 34.13% and 28.85%* students respectively could be marked beyond 60% marks respectively.

4) The students' academic performance has been better in semester V and VI than the other semesters.

RESULT ANALYSIS: Department of Chemistry
Academic year 2016-17

The results analysis of the Department of Chemistry students is a blend of students' performance. Few semesters have witnessed better results than others. The results have also varied with distinct subjects. Some subjects have shown a bias scoring pattern of students' performance. Whereas several subjects have shown an evenly scattered marks' pattern. After gathering the data of students' marks on yearly basis, they have been detailed further. It has also been observed that a students' performance may pragmatically be analyzed by classifying them into three groups as 0-50%, 50-60% and 60-100%. Further, the number of students who have appeared for the examination have also been listed in the table.

The result has been discussed in the tabular layout in regards to the marks secured pattern of students' examination results. The percentage approach has been considered to analyze the result where the number of students has been categorically listed among three groups. The students' performance as percentage number of students has been highlighted among the same three groups.

The result analysis key highlights are:

1) For the subjects of Chemistry, respective students have enrolled for examination in first, second and third year respectively in the academic year 2016-17.

2) In the paper *Green method in chemistry,* around 95.60% students secured first division.

3) The paper *Solution, Conduction, Electrochemistry and functional group* has been underperformed by the students. Hardly 23.30% students scored first division in the paper. The remedial measures have been recommended by the College for the students.

RESULT ANALYSIS: Department of Computer Science Academic year 2016-17

The results analysis of the Computer Science students is a blend of students' performance. Few semesters have witnessed better results than others. The results have also varied with distinct subjects. Some subjects have shown a bias scoring pattern of students' performance. Whereas several subjects have shown an evenly scattered marks' pattern. After gathering the data of students' marks on yearly basis, they have been detailed further. It has also been observed that a students' performance may pragmatically be analyzed by classifying them into three groups as 0-50%, 50-60% and 60-100%. Further, the number of students who have appeared for the examination have also been listed in the table.

The result has been discussed in the tabular layout in regards to the marks secured pattern of students' examination results. The percentage approach has been considered to analyze the result where the number of students has been categorically listed among three groups. The students' performance as percentage number of students has been highlighted among the same three groups.

The result analysis key highlights are:

1) For the subjects of Computer Science, respective students have enrolled for examination in first, second and third year respectively in the academic year 2016-17.

2) More than 90.00% students scored first division in three papers namely, *Practical Stenography & e-typing, Computer Network and Multimedia System and Application.*

3) The result of paper *Problem Solving using computer* has been an underperformed area of the students. Merely, around 14.63% students have made upto first division. The remedial measures have been solicited by the students.

RESULT ANALYSIS: Department of Economics
Academic year 2016-17

The results analysis of the Department of Economics students is a blend of students' performance. Few semesters have witnessed better results than others. The results have also varied with distinct subjects. Some subjects have shown a bias scoring pattern of students' performance. Whereas several subjects have shown an evenly scattered marks' pattern. After gathering the data of students' marks on yearly basis, they have been detailed further. It has also been observed that a students' performance may pragmatically be analyzed by classifying them into three groups as 0-50%, 50-60% and 60-100%. Further, the number of students who have appeared for the examination have also been listed in the table.

The result has been discussed in the tabular layout in regards to the marks secured pattern of students' examination results. The percentage approach has been considered to analyze the result where the number of students has been categorically listed among three groups. The students' performance as percentage number of students has been highlighted among the same three groups.

The result analysis key highlights are:

1) In the course of BA(Hons) Economics, 48, 58 and 59 students have enrolled for examination in first, second and third year respectively in the academic year 2016-17.

2) The academic score of the students have been highest in papers namely, *Introductory Macro Economics, Indian Economy, Indian Economy-2, Research Methodology, Money and Financial Markets, Economic Development and Policy in India, Applied Econometrics, Economic Development and Policy in India-II and International Economics* than the other papers.

3) Few papers with students' least performance have also been observed. The papers and the proportion of first division holders (as mentioned in brackets) are *Introductory Microeconomics-I*(22.22%), *Principles of Microeconomics-I*(0.00%), *Introductory Macro Eco*(22.22%), *Intermediate Microeconomics-2*(25.86%), *International Economics* (16.95%) and *Public Economics* (16.67%). There persists a room of improvement for these papers.

RESULT ANALYSIS: Department of English

Academic year 2016-17

The results analysis of the Department of English students is a blend of students' performance. Few semesters have witnessed better results than others. The results have also varied with distinct subjects. Some subjects have shown a bias scoring pattern of students' performance. Whereas several subjects have shown an evenly scattered marks' pattern. After gathering the data of students' marks on yearly basis, they have been detailed further. It has also been observed that a students' performance may pragmatically be analyzed by classifying them into three groups as 0-50%, 50-60% and 60-100%. Further, the number of students who have appeared for the examination have also been listed in the table.

The result has been discussed in the tabular layout in regards to the marks secured pattern of students' examination results. The percentage approach has been considered to analyze the result where the number of students has been categorically listed among three groups. The students' performance as percentage number of students has been highlighted among the same three groups.

The result analysis key highlights are:

1) In the course of BA(Hons) English, 48, 42 and 87 students have enrolled for examination in first, second and third year respectively in the academic year 2016-17.

2) The papers with best students' academic performance are *Business Communication, English-A, Translation Studies, Academic writing and composition, Creative Writing Book and Media Reviews, Advanced English, Literary Theory(i), Modern European Drama, Advanced English and Modern Indian Literature, Poems and short stories: Novel or Play.* Here, more than 60.00% students secured first division.

3) The remedial measures have been sought for by the students in the papers like *European Classical Literature, Issue in C.W., British Romantic Lit, British Literature 19th C, British Literature 18C, Indian Classical Literature, Popular Literature, Advanced English, Women's Studies in India and BP&D: 17 & 18C* . In all these papers, less than 10.00% students could secure the first division.

RESULT ANALYSIS: Department of Hindi
Academic year 2016-17

The results analysis of the Department of Hindi students is a blend of students' performance. Few semesters have witnessed better results than others. The results have also varied with distinct subjects. Some subjects have shown a bias scoring pattern of students' performance. Whereas several subjects have shown an evenly scattered marks' pattern. After gathering the data of students' marks on yearly basis, they have been detailed further. It has also been observed that a students' performance may pragmatically be analyzed by classifying them into three groups as 0-50%, 50-60% and 60-100%. Further, the number of students who have appeared for the examination have also been listed in the table.

The result has been discussed in the tabular layout in regards to the marks secured pattern of students' examination results. The percentage approach has been considered to analyze the result where the number of students has been categorically listed among three groups. The students' performance as percentage number of students has been highlighted among the same three groups.

The result analysis key highlights are:

1) In the course of BA(Hons) Hindi**,** 49, 47 and 55 students have enrolled for examination in first, second and third year respectively in the academic year 2016-17.

2) More than 80.00% students have made upto the first division in the papers like *Bhasha Shikshan Avam Hindi Bhasha, Rangmanch Siddhant, Hindi Literature, Bhartiya Sahitya Pathparak Adhyayan, Hindi A,Media-2 Vyavharmulak And Bhasha Shikshan Aur Hindi Bhasha.*

3) Some of the papers have found to be not so easy for students to score. No student could cross 60.00% marks in *European Classical Literature, Issue in C.W., British Romantic Lit and Creative Writing (Hindi)-II.*

RESULT ANALYSIS: Department of History
Academic year 2016-17

The results analysis of the Department of History students is a blend of students' performance. Few semesters have witnessed better results than others. The results have also varied with distinct subjects. Some subjects have shown a bias scoring pattern of students' performance. Whereas several subjects have shown an evenly scattered marks' pattern. After gathering the data of students' marks on yearly basis, they have been detailed further. It has also been observed that a students' performance may pragmatically be analyzed by classifying them into three groups as 0-50%, 50-60% and 60-100%. Further, the number of students who have appeared for the examination have also been listed in the table.

The result has been discussed in the tabular layout in regards to the marks secured pattern of students' examination results. The percentage approach has been considered to analyze the result where the number of students has been categorically listed among three groups. The students' performance as percentage number of students has been highlighted among the same three groups.

The result analysis key highlights are:

1) In the course of BA(Hons) History, 51, 56 and 76 students have enrolled for examination in first, second and third year respectively in the academic year 2016-17.

2) More than half of the students have scored in the range of 60-100% marks in the papers namely, *Understanding Popular Culture, Indian Art-II Painting & Architecture , Issues in World History-II (The 20th Century), Delhi: Modern and History of China & Japan-II(c1840-1949)* .

3) Less than 10.00% students have secured first division in the papers like *Understanding Ambedkar, History of India-VII(c.1605-1750),History of India II, History of India-IV (c.1200-1500),History of India V(c-1550-1605),Issues in World History I (The 20th Century) and Modern Delhi.* There persists an academic improvement opportunity in these papers.

4) The semester VI results seem to be better than the other semesters.

S.No.	Semester	No. of Students	Subject	Subject Code	60-100 %	50-60 %	0-50 %	Absent %	Total %

RESULT ANALYSIS: Department of Maths
Academic year 2016-17

The results analysis of the Department of Maths students is a blend of students' performance. Few semesters have witnessed better results than others. The results have also varied with distinct subjects. Some subjects have shown a bias scoring pattern of students' performance. Whereas several subjects have shown an evenly scattered marks' pattern. After gathering the data of students' marks on yearly basis, they have been detailed further. It has also been observed that a students' performance may pragmatically be analyzed by classifying them into three groups as 0-50%, 50-60% and 60-100%. Further, the number of students who have appeared for the examination have also been listed in the table.

The result has been discussed in the tabular layout in regards to the marks secured pattern of students' examination results. The percentage approach has been considered to analyze the result where the number of students has been categorically listed among three groups. The students' performance as percentage number of students has been highlighted among the same three groups.

The result analysis key highlights are:

1) For the subjects of Maths, respective students have enrolled for examination in first, second and third year respectively in the academic year 2016-17.

2) More than 70.00% students have crossed the first division mark in the papers like *Linear Algebra, Differential Equation, Numerical Methods, Real Analysis and Maths -VI Mechanics and discrete mathematics.*

3) The paper that needs remedial measures is *Algebra which* has pushed only 35.81% students to cross first division benchmark.

RESULT ANALYSIS: Department of Physics
Academic year 2016-17

The results analysis of the Physics students is a blend of students' performance. Few semesters have witnessed better results than others. The results have also varied with distinct subjects. Some subjects have shown a bias scoring pattern of students' performance. Whereas several subjects have shown an evenly scattered marks' pattern. After gathering the data of students' marks on yearly basis, they have been detailed further. It has also been observed that a students' performance may pragmatically be analyzed by classifying them into three groups as 0-50%, 50-60% and 60-100%. Further, the number of students who have appeared for the examination have also been listed in the table.

The result has been discussed in the tabular layout in regards to the marks secured pattern of students' examination results. The percentage approach has been considered to analyze the result where the number of students has been categorically listed among three groups. The students' performance as percentage number of students has been highlighted among the same three groups.

The result analysis key highlights are:

1) For the subjects of Physics, respective students have enrolled for examination in first, second and third year respectively in the academic year 2016-17.

2) The papers namely *Electronic Circuits, Quantum mechanics and Atomic physics, Solid state and Nuclear Physics, Communication Electronics, Basic Instrumentation Skills and Microprocessor and Microcontroller* have reflected the best performance of the students. More than 70.00% students have crossed the first division mark in these papers.

3) The remedial measures are pivotal in the paper *Linear and digital integrated circuits* where merely 33.87% students scored first division and above.

RESULT ANALYSIS: Department of Political Science
Academic year 2016-17

The results analysis of the Department of Political Science students is a blend of students' performance. Few semesters have witnessed better results than others. The results have also varied with distinct subjects. Some subjects have shown a bias scoring pattern of students' performance. Whereas several subjects have shown an evenly scattered marks' pattern. After gathering the data of students' marks on yearly basis, they have been detailed further. It has also been observed that a students' performance may pragmatically be analyzed by classifying them into three groups as 0-50%, 50-60% and 60-100%. Further, the number of students who have appeared for the examination have also been listed in the table.

The result has been discussed in the tabular layout in regards to the marks secured pattern of students' examination results. The percentage approach has been considered to analyze the result where the number of students has been categorically listed among three groups. The students' performance as percentage number of students has been highlighted among the same three groups.
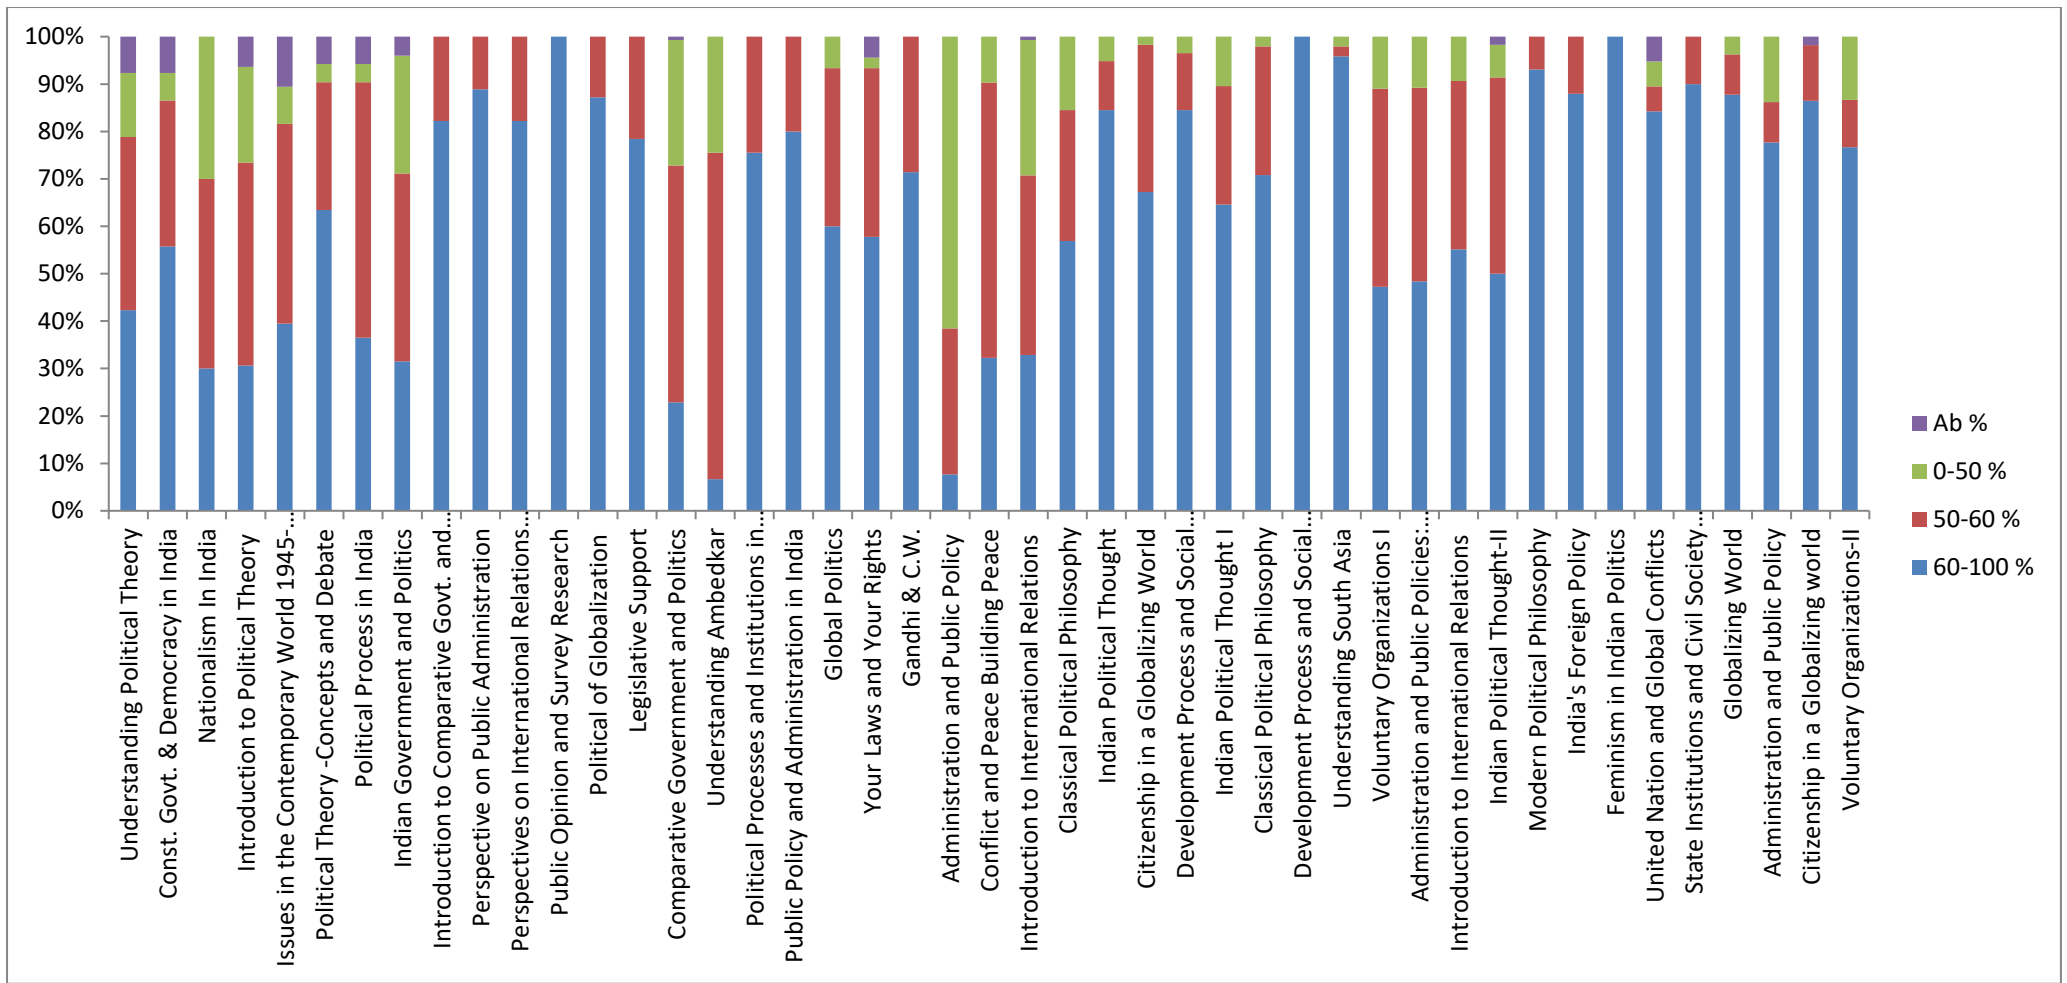

The result analysis key highlights are:

1) In the course of BA(Hons) Political Science, 52, 45 and 58 students have enrolled for examination in first, second and third year respectively in the academic year 2016-17.

2) In the papers *Public Opinion and Survey Research, Development Process and Social Movement, Feminism in Indian Politics, Understanding South Asia and Modern Political Philosophy* more than 90.00% students have crossed first division. These papers comprise of the best performance of students among all the papers offered by the Department.

3) The results of the two papers *Administration and Public Policy and Understanding Ambedkar* have shown average marks among the students. In these two papers less than 10.00% students got first division. The students' performance seeks more guidance in these papers.

4) Semester VI seems to have better students' result than all the other semesters.
