

RESULT ANALYSIS: B.Com (Hons.)

Academic year 2017-18

The results analysis of the **B.Com (Hons.)** students is a blend of students' performance. Few semesters have witnessed better results than others. The results have also varied with distinct subjects. Some subjects have shown a bias scoring pattern of students' performance. Whereas several subjects have shown an evenly scattered marks' pattern. After gathering the data of students' marks on yearly basis, they have been detailed further. It has also been observed that a students' performance may pragmatically be analyzed by classifying them into three groups as 0-50%, 50-60% and 60-100%. Further, the number of students who have appeared for the examination have also been listed in the table.

The result has been discussed in the tabular layout in regards to the marks secured pattern of students' examination results. The percentage approach has been considered to analyze the result where the number of students has been categorically listed among three groups. The students' performance as percentage number of students has been highlighted among the same three groups.

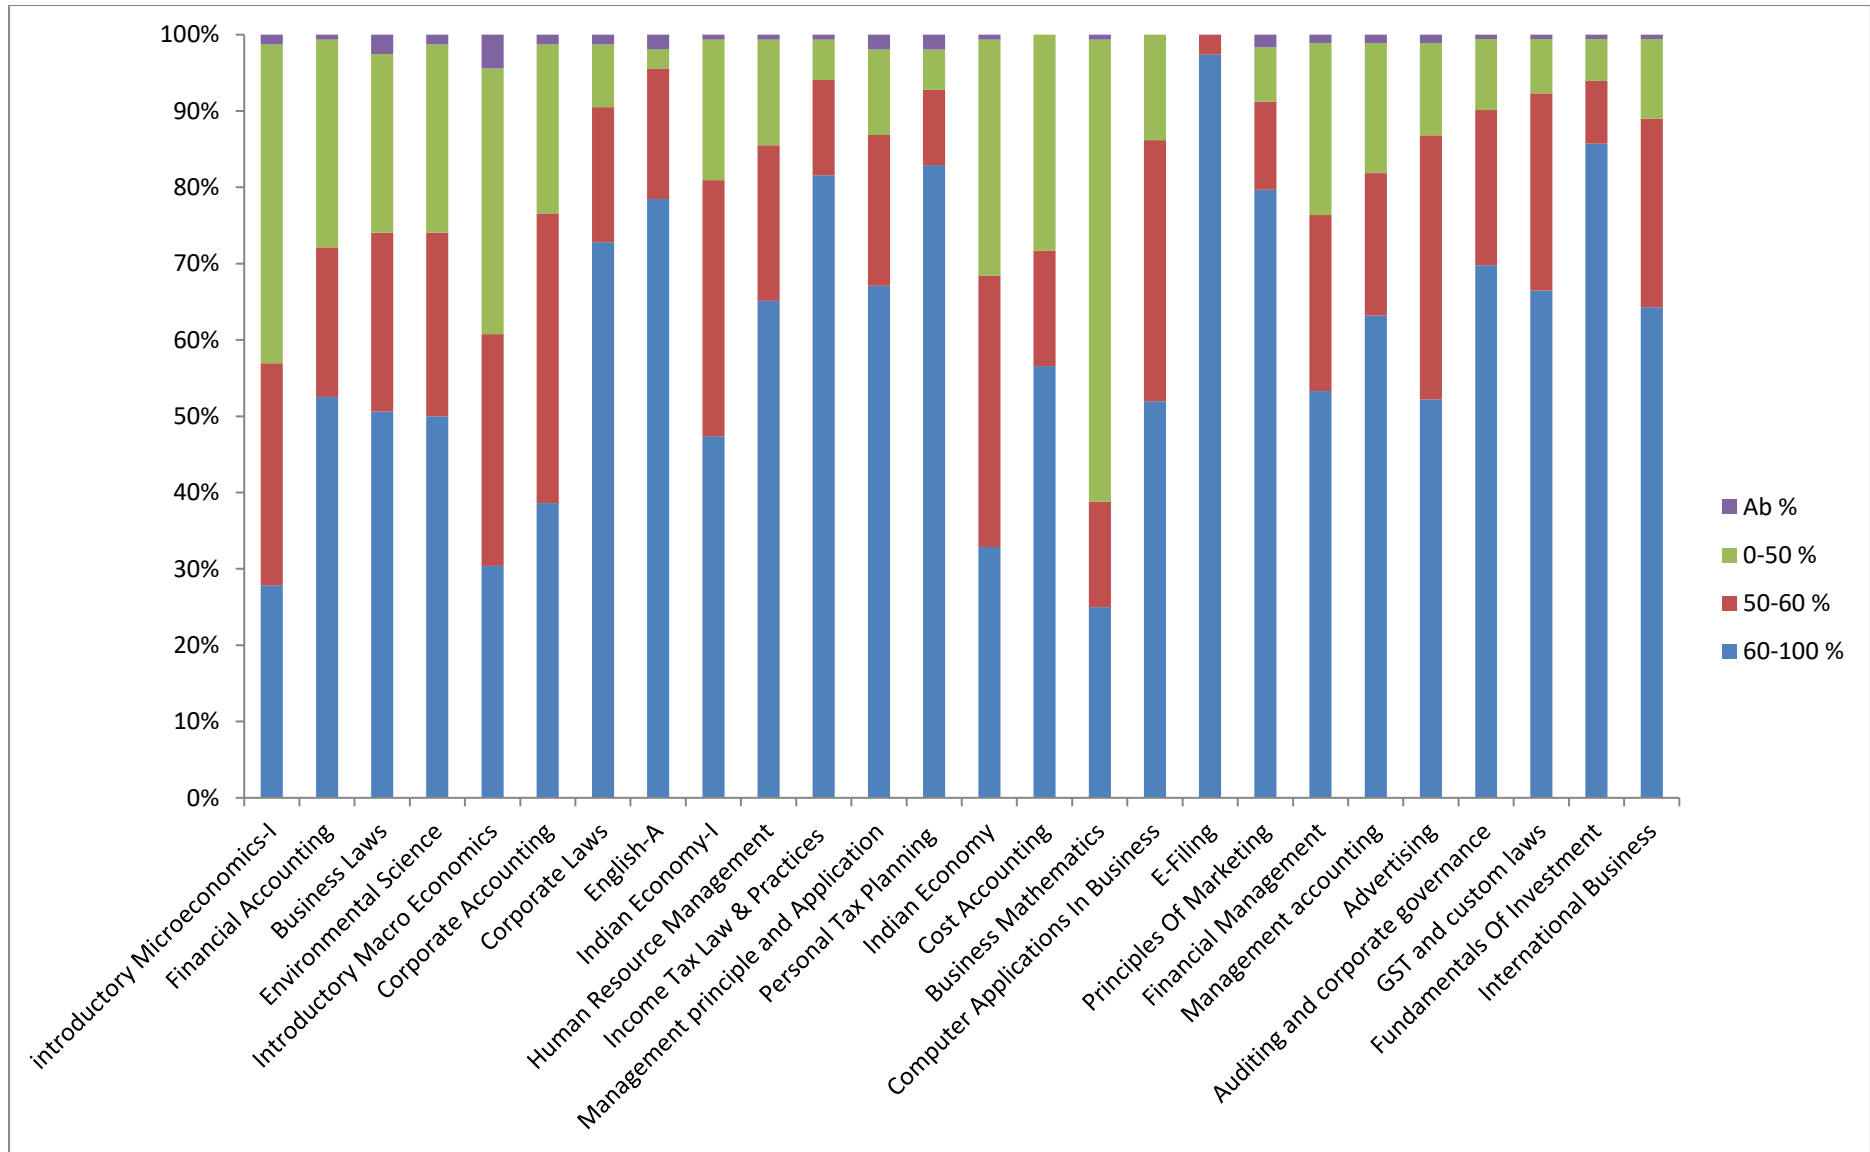

The result analysis key highlights are:

- 1) In the course B.Com (Hons.), 158,152 and 182 students have enrolled for examination in first, second and third year respectively in the academic year 2017-18.
- 2) More than 70.00% students have secured first division in the papers: *E-Filing, Fundamentals of investment, Personal Tax Planning, Income Tax Law & Practices, Principles of marketing, English-A and Corporate Laws.*
- 3) Less than 30.00% students have scored first division in *Introductory Microeconomics-I and Business Mathematics.* The students' result need to be improved for the overall result of the course.
- 4) The students' performance has been found to be better in Practical papers than in the theoretical papers in most of the semesters.

S.No.	Semester	No. of students	Subject	Subject code	60-100%	50-60%	0-50%	Absent%	Total

RESULT ANALYSIS: B.Com (Prog)

Academic year 2017-18

The results analysis of the **B.Com (Prog.)** students is a blend of students' performance. Few semesters have witnessed better results than others. The results have also varied with distinct subjects. Some subjects have shown a bias scoring pattern of students' performance. Whereas several subjects have shown an evenly scattered marks' pattern. After gathering the data of students' marks on yearly basis, they have been detailed further. It has also been observed that a students' performance may pragmatically be analyzed by classifying them into three groups as 0-50%, 50-60% and 60-100%. Further, the number of students who have appeared for the examination have also been listed in the table.

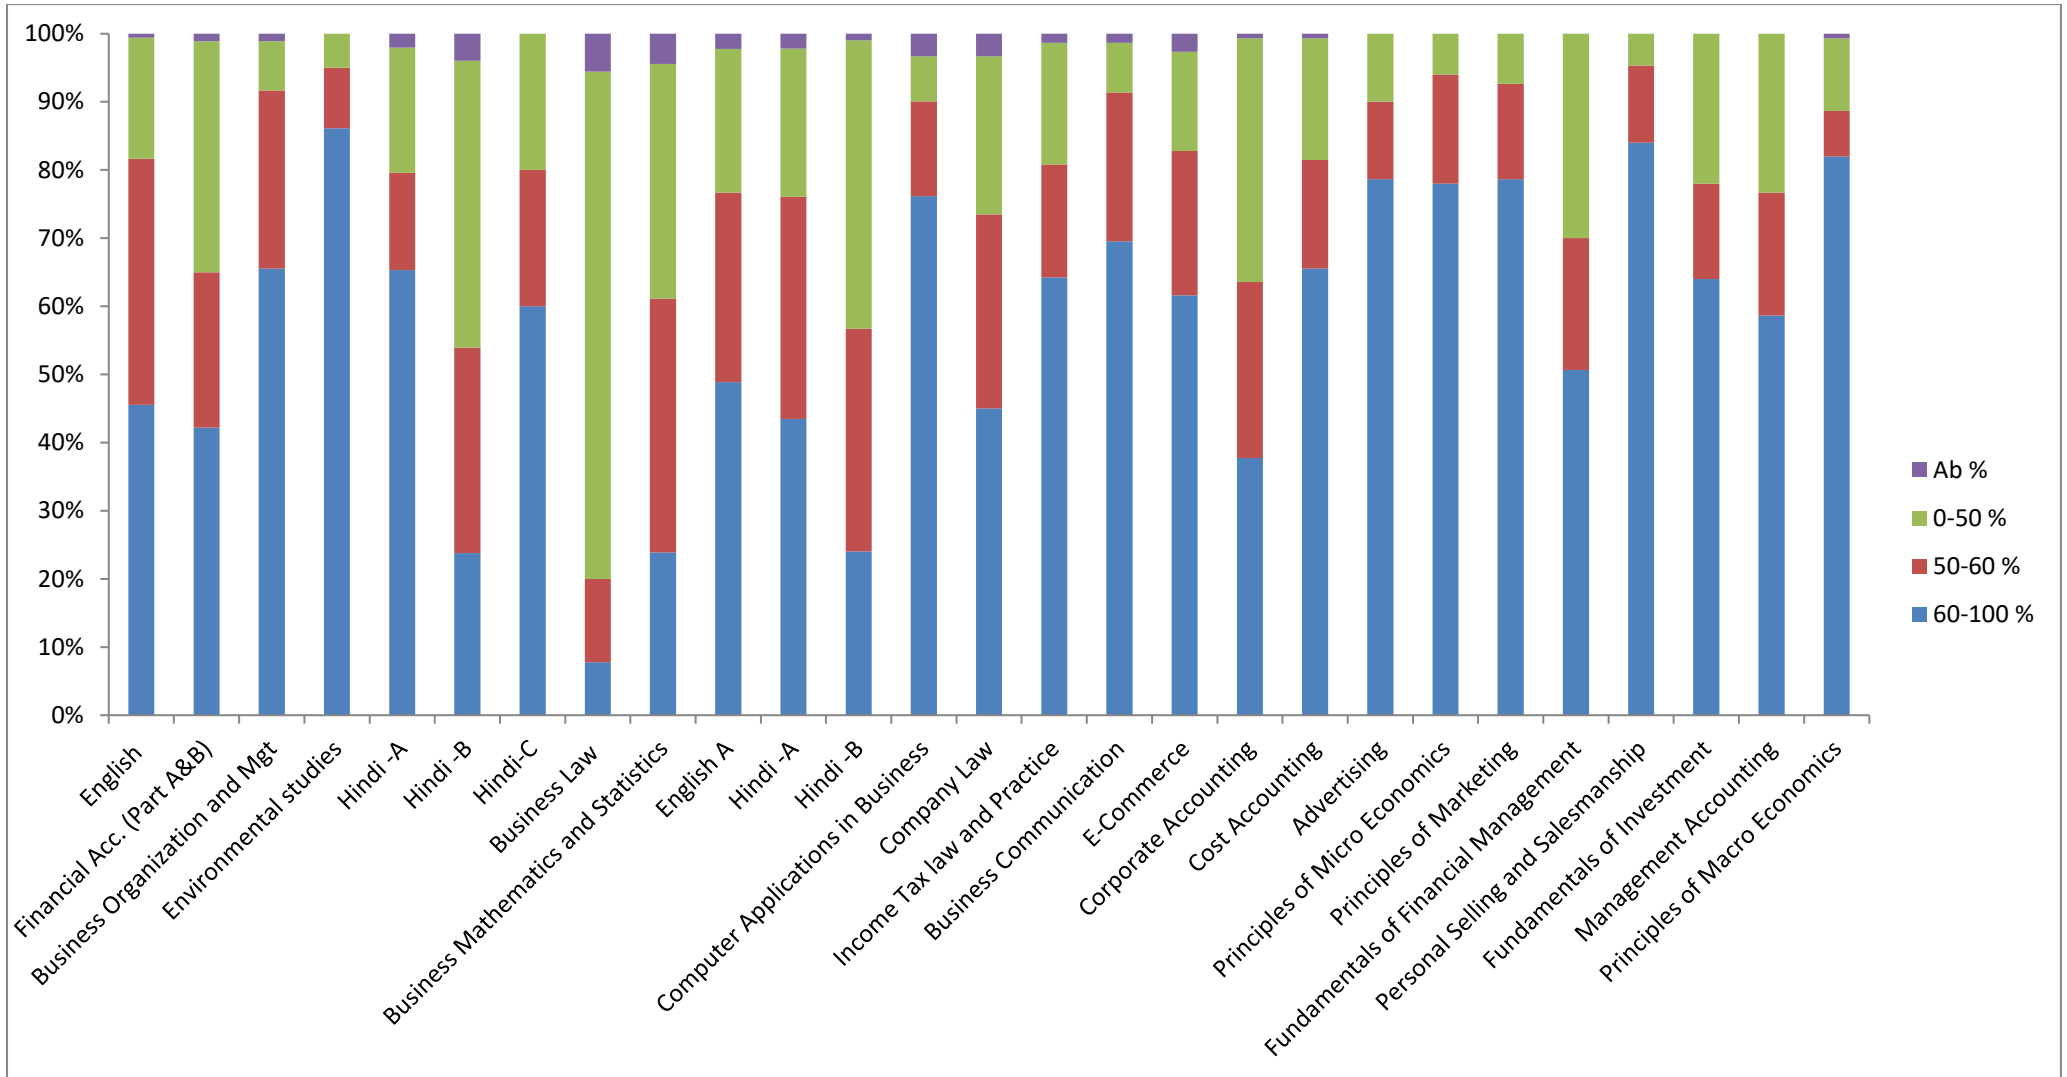

The result has been discussed in the tabular layout in regards to the marks secured pattern of students' examination results. The percentage approach has been considered to analyze the result where the number of students has been categorically listed among three groups. The students' performance as percentage number of students has been highlighted among the same three groups.

The result analysis key highlights are:

- 1) In the course of B.Com (Prog.), 180, 151 and 150 students have enrolled for examination in first, second and third year respectively in the academic year 2017-18.
- 2) In the following papers, more than 70.00% students secured first division marks. The papers are *Environmental studies, Personal Selling and Salesmanship, Principles of Macro Economics, Advertising, Principles of Marketing, Principles of Micro Economics and Computer Applications in Business*.
- 3) In the paper *Business Law* less than 7.78% students scored first division marks in B.Com(Prog). This paper looks forward to remedial measures for students.
- 4) The Semester VI results is found to be better than all the other semester results.

RESULT ANALYSIS: Department of Chemistry

Academic year 2017-18

The results analysis of the Chemistry students is a blend of students' performance. Few semesters have witnessed better results than others. The results have also varied with distinct subjects. Some subjects have shown a bias scoring pattern of students' performance. Whereas several subjects have shown an evenly scattered marks' pattern. After gathering the data of students' marks on yearly basis, they have been detailed further. It has also been observed that a students' performance may pragmatically be analyzed by classifying them into three groups as 0-50%, 50-60% and 60-100%. Further, the number of students who have appeared for the examination have also been listed in the table.

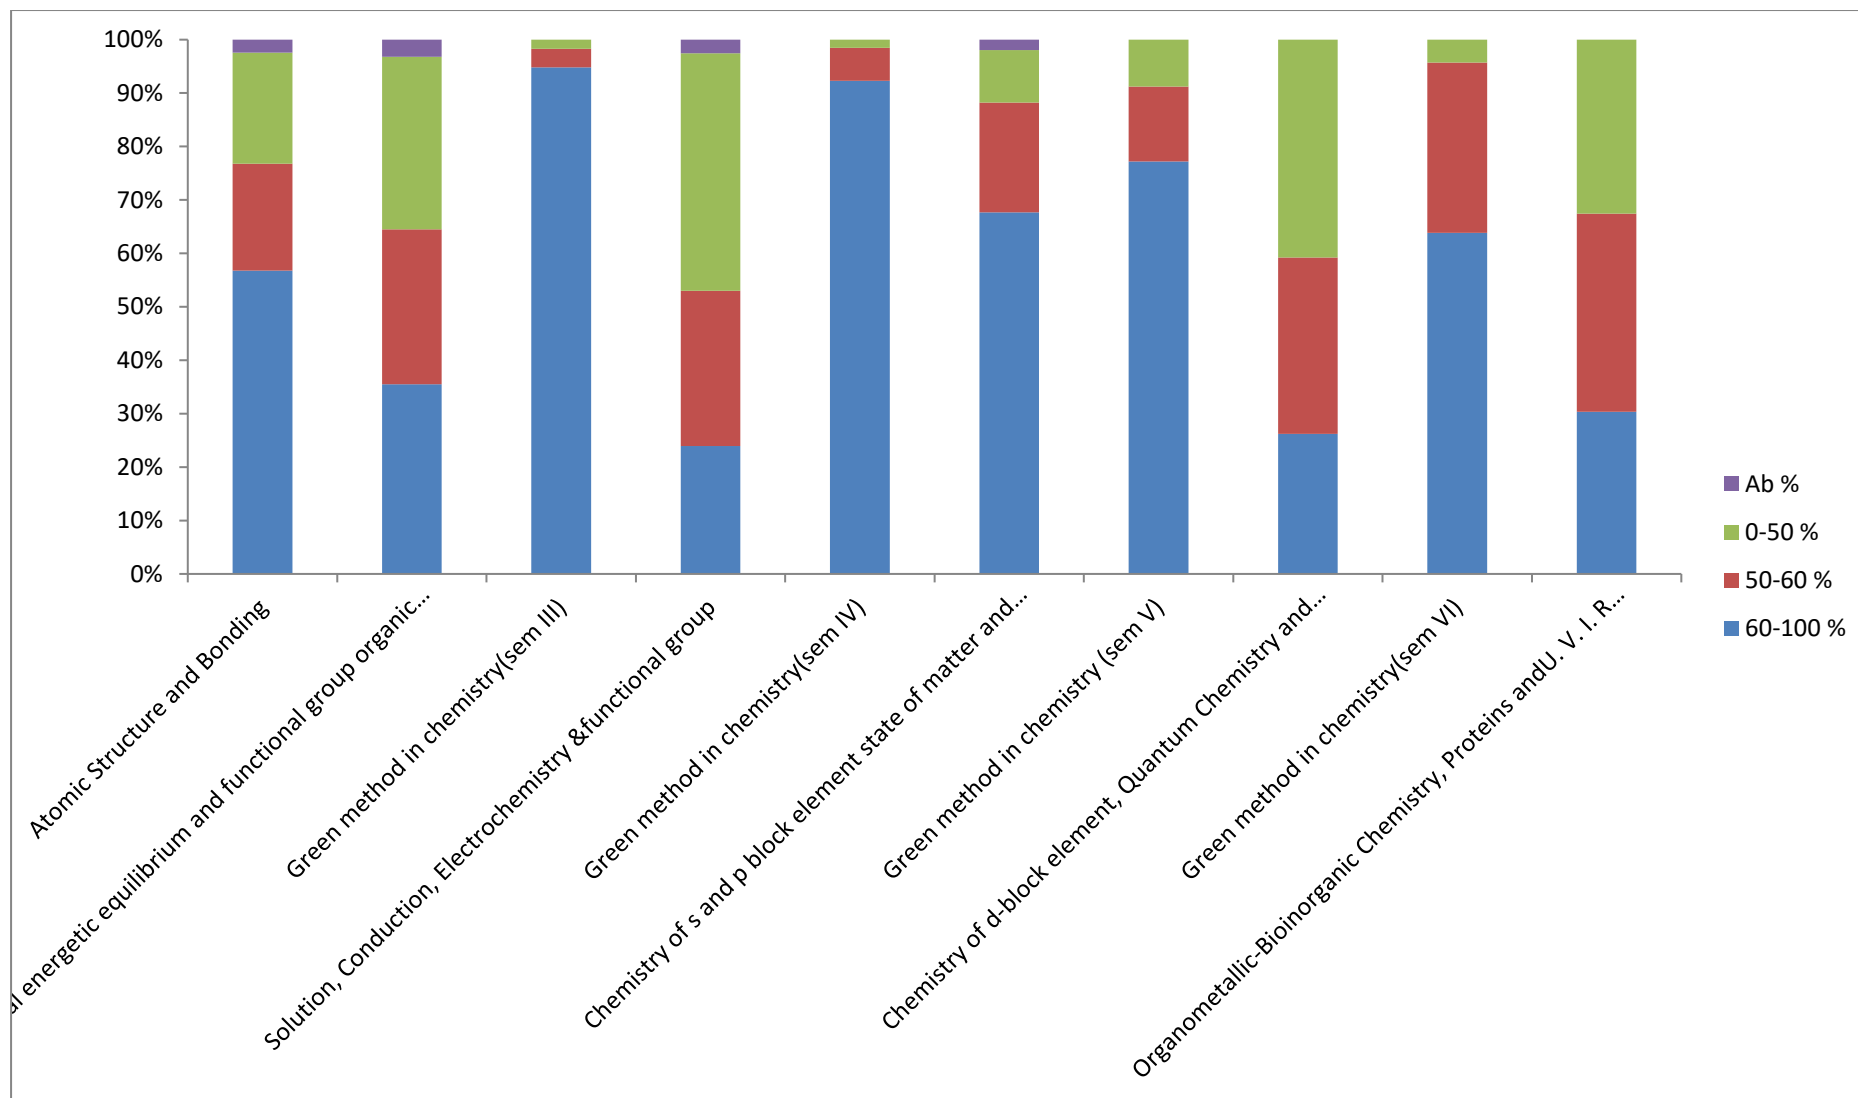

The result has been discussed in the tabular layout in regards to the marks secured pattern of students' examination results. The percentage approach has been considered to analyze the result where the number of students has been categorically listed among three groups. The students' performance as percentage number of students has been highlighted among the same three groups.

The result analysis key highlights are:

- 1) For the subjects of Chemistry, respective students have enrolled for examination in first, second and third year respectively in the academic year 2017-18.
- 2) The two papers *Green method in chemistry* and *Chemistry of s and p block element state of matter and chemical kinetics* have more than 60.00% students securing first division.
- 3) The result of the paper *Solution, Conduction, Electrochemistry and functional group* has been quite average in the students' performance. Here, some 23.93% students have secured first division.

RESULT ANALYSIS: Department of Computer Science

Academic year 2017-18

The results analysis of the Computer Science students is a blend of students' performance. Few semesters have witnessed better results than others. The results have also varied with distinct subjects. Some subjects have shown a bias scoring pattern of students' performance. Whereas several subjects have shown an evenly scattered marks' pattern. After gathering the data of students' marks on yearly basis, they have been detailed further. It has also been observed that a students' performance may pragmatically be analyzed by classifying them into three groups as 0-50%, 50-60% and 60-100%. Further, the number of students who have appeared for the examination have also been listed in the table.

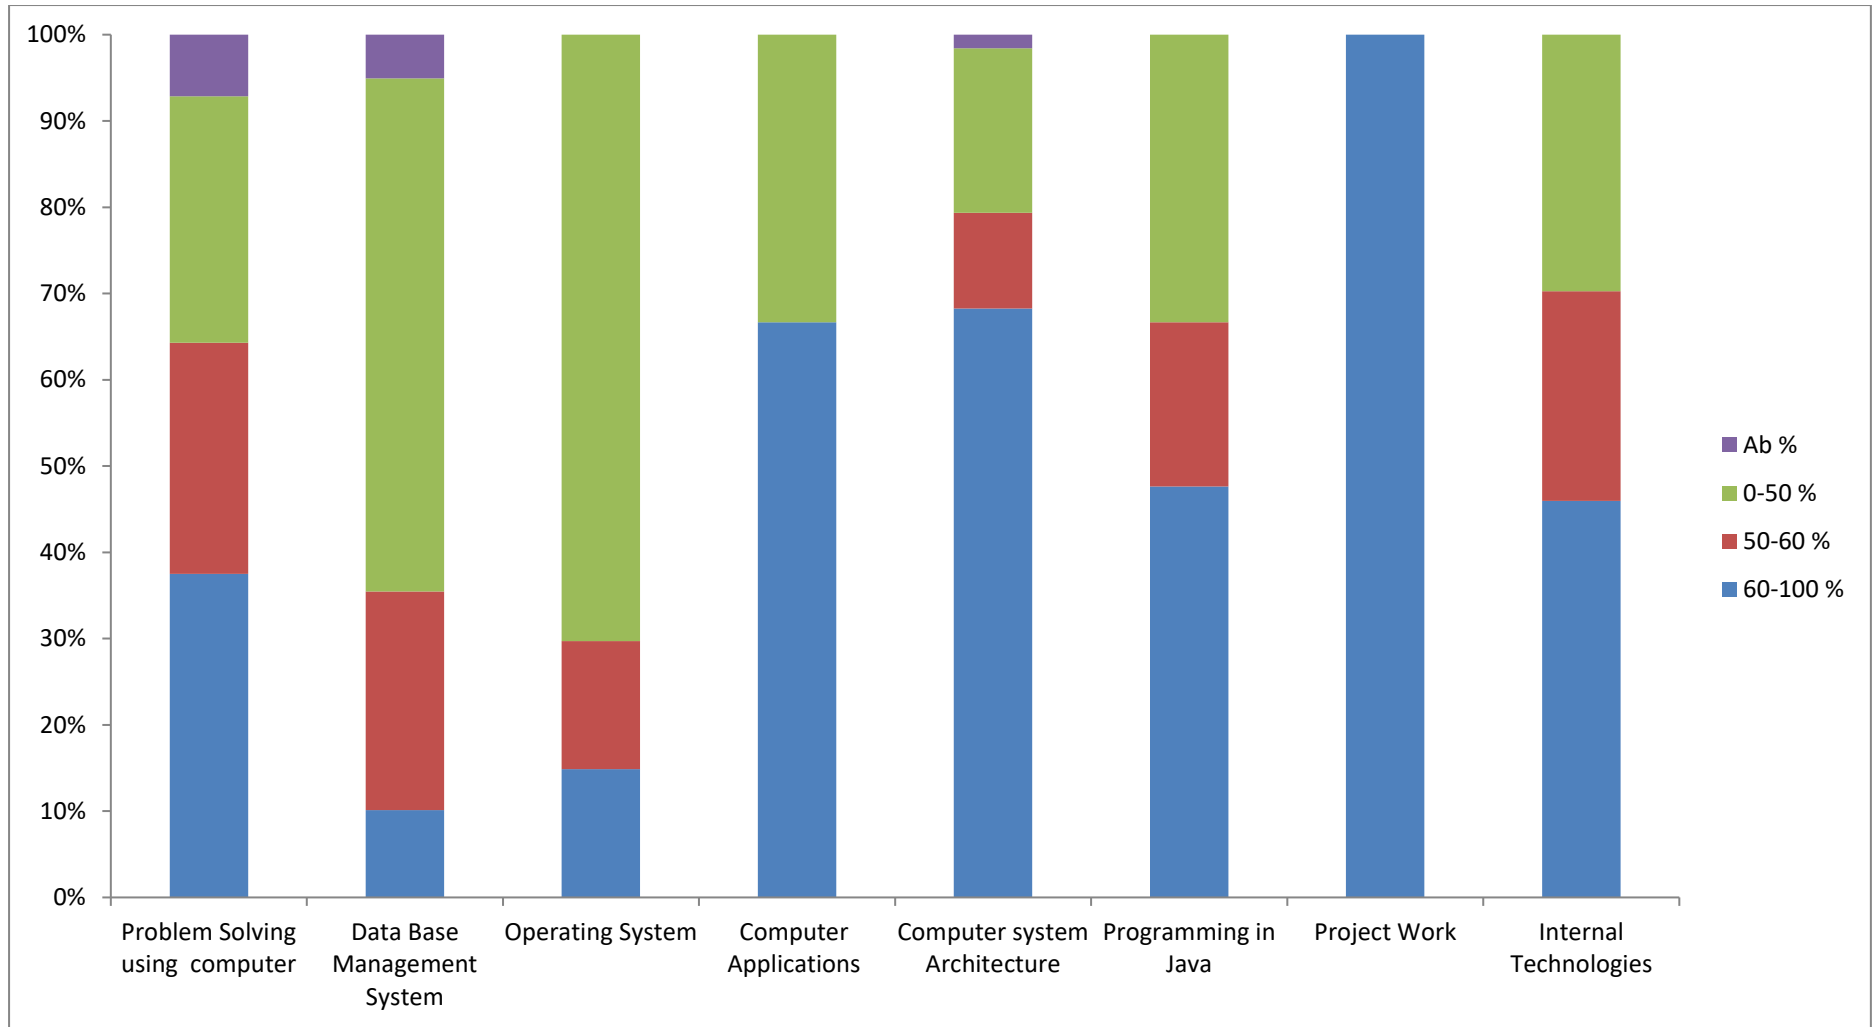

The result has been discussed in the tabular layout in regards to the marks secured pattern of students' examination results. The percentage approach has been considered to analyze the result where the number of students has been categorically listed among three groups. The students' performance as percentage number of students has been highlighted among the same three groups.

The result analysis key highlights are:

- 1) For the subjects of Computer Science, respective students have enrolled for examination in first, second and third year respectively in the academic year 2017-18.
- 2) In the *Project Work*, all the enrolled students secured more than 60.00% marks.
- 3) More than 60.00% students have secured first division in the paper *Computer system Architecture and Computer Applications*.
- 4) The two papers *Chemistry of d-block element, Quantum Chemistry and spectroscopy* and *Solution, Conduction, Electrochemistry and functional group* have shown relatively less students' performance. Less than 30.00% students secured first division marks seeking some remedial measures for the students.

RESULT ANALYSIS: Department of Economics

Academic year 2017-18

The results analysis of the Department of Economics students is a blend of students' performance. Few semesters have witnessed better results than others. The results have also varied with distinct subjects. Some subjects have shown a bias scoring pattern of students' performance. Whereas several subjects have shown an evenly scattered marks' pattern. After gathering the data of students' marks on yearly basis, they have been detailed further. It has also been observed that a students' performance may pragmatically be analyzed by classifying them into three groups as 0-50%, 50-60% and 60-100%. Further, the number of students who have appeared for the examination have also been listed in the table.

The result has been discussed in the tabular layout in regards to the marks secured pattern of students' examination results. The percentage approach has been considered to analyze the result where the number of students has been categorically listed among three groups. The students' performance as percentage number of students has been highlighted among the same three groups.

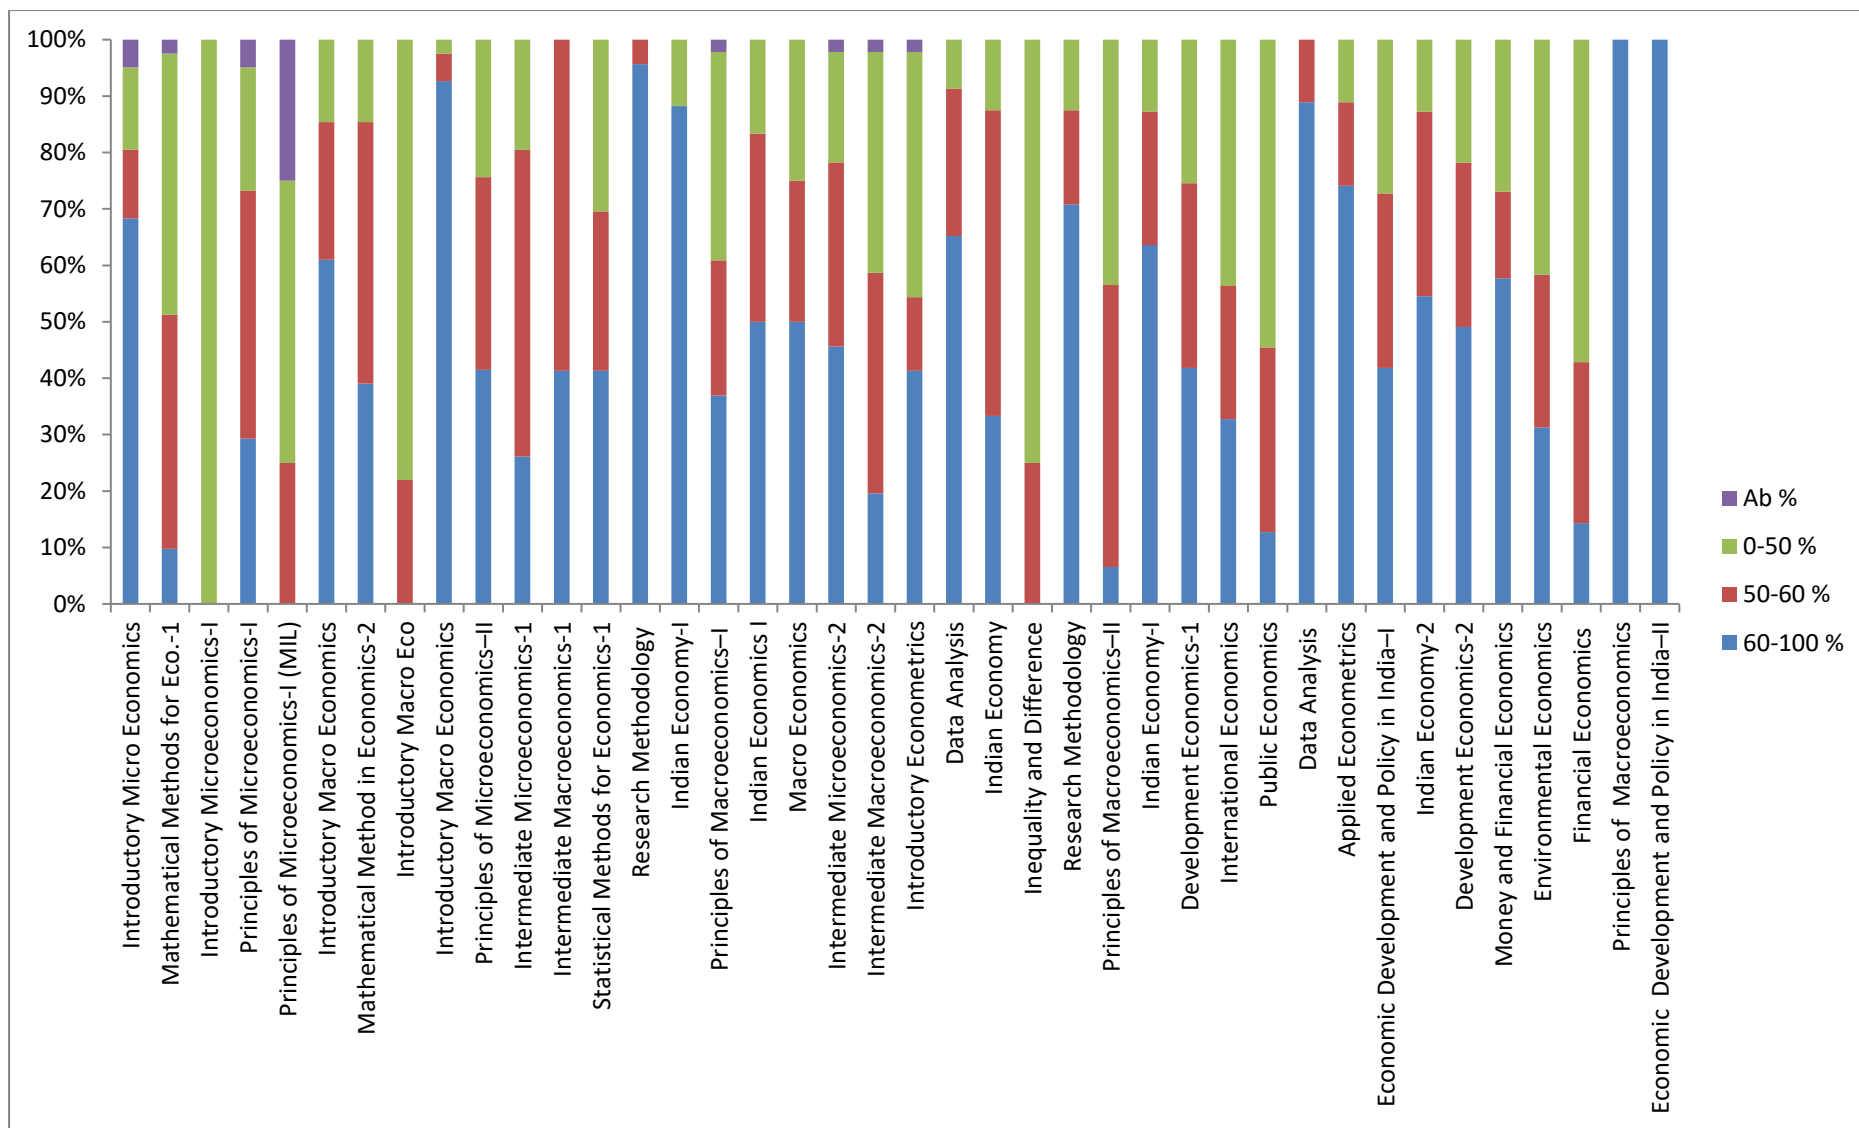

The result analysis key highlights are:

- 1) In the course of BA(Hons) Economics, 41, 46 and 55 students have enrolled for examination in first, second and third year respectively in the academic year 2017-18.
- 2) More than 80.00% students secured first division in papers *Principles of Macroeconomics, Economic Development and Policy in India–II, Research Methodology ,Introductory Macro Economics, Data Analysis and Indian Economy-I.*
- 3) No student secured first division in four papers *Introductory Microeconomics-I, Principles of Microeconomics-I, Introductory Macro Eco and Inequality and Difference.* These papers' results look forward to remedial measures.
- 4) The semester V and VI have shown better results than all the other semesters.

RESULT ANALYSIS: Department of English

Academic year 2017-18

The results analysis of the Department of English students is a blend of students' performance. Few semesters have witnessed better results than others. The results have also varied with distinct subjects. Some subjects have shown a bias scoring pattern of students' performance. Whereas several subjects have shown an evenly scattered marks' pattern. After gathering the data of students' marks on yearly basis, they have been detailed further. It has also been observed that a students' performance may pragmatically be analyzed by classifying them into three groups as 0-50%, 50-60% and 60-100%. Further, the number of students who have appeared for the examination have also been listed in the table.

The result has been discussed in the tabular layout in regards to the marks secured pattern of students' examination results. The percentage approach has been considered to analyze the result where the number of students has been categorically listed among three groups. The students' performance as percentage number of students has been highlighted among the same three groups.

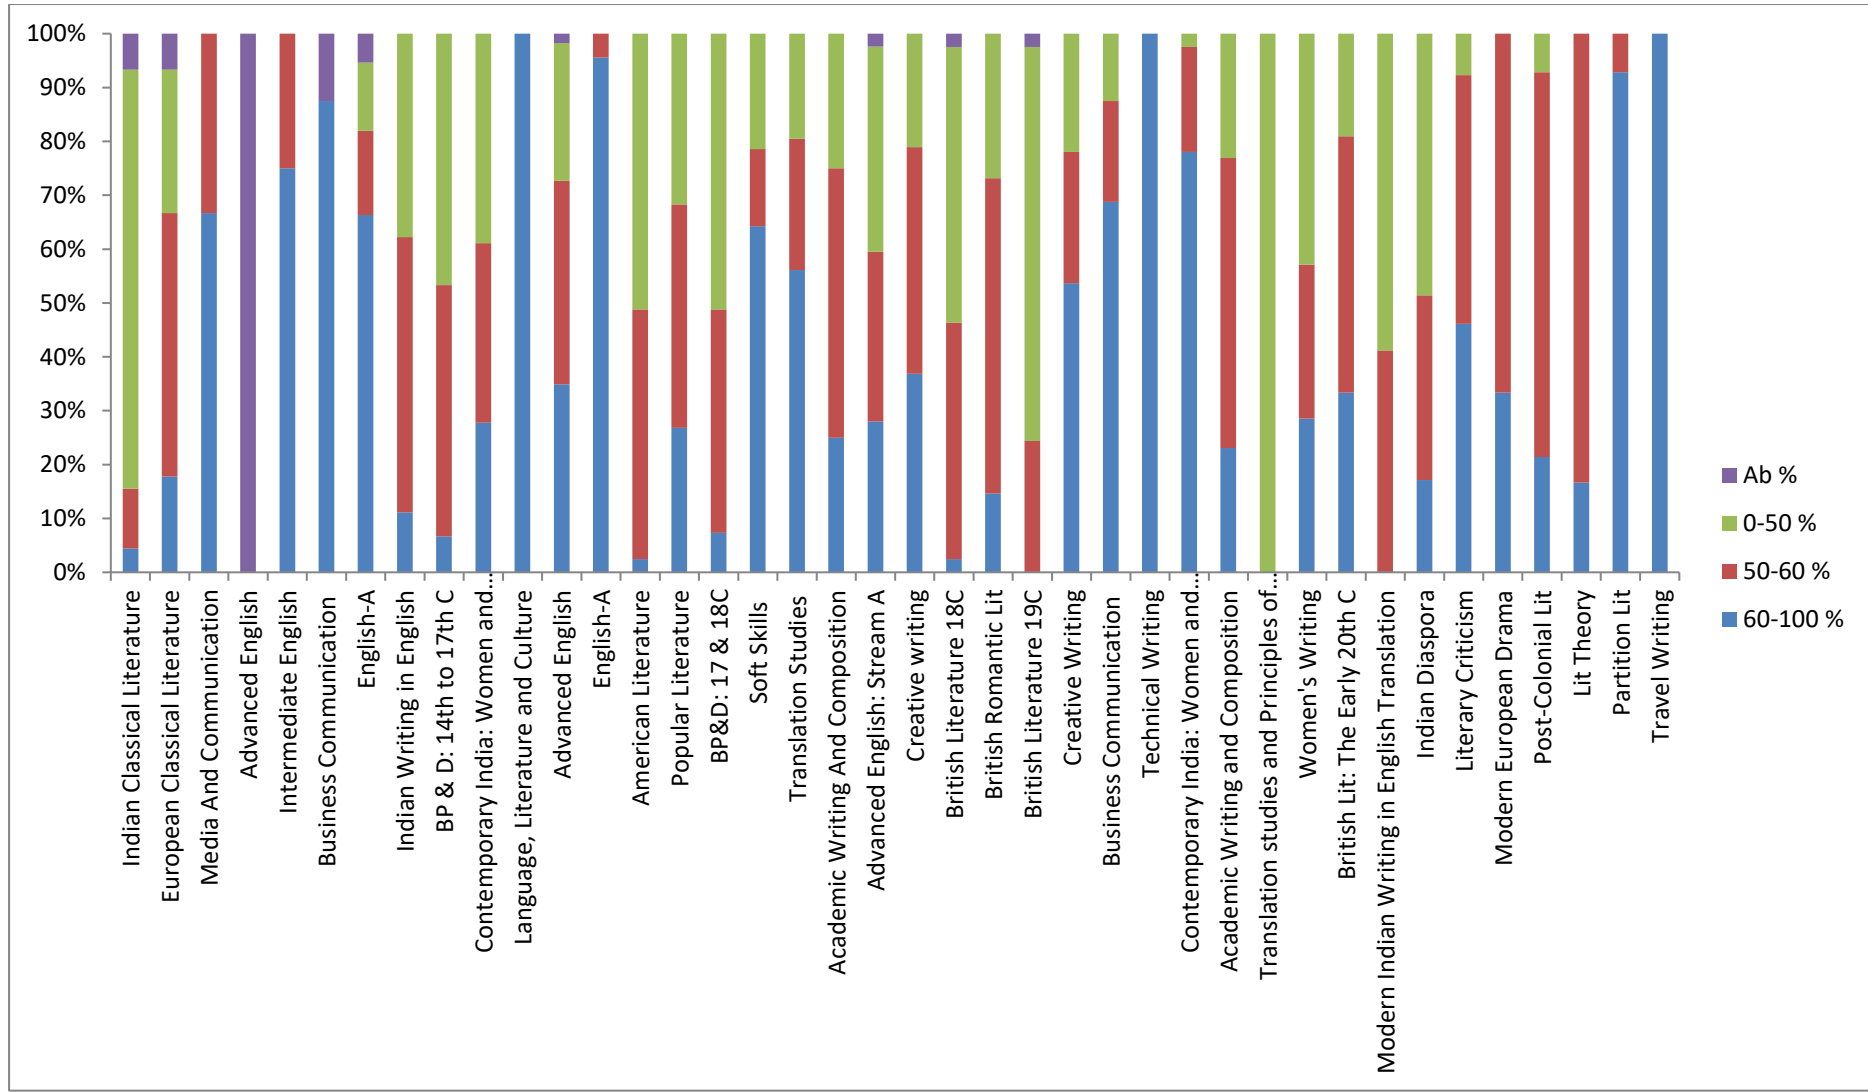

The result analysis key highlights are:

- 1) In the course of BA(Hons) English, 45, 41 and 42 students have enrolled for examination in first, second and third year respectively in the academic year 2017-18.
- 2) More than 70.00% students secured first division in eight papers *Language, Literature and Culture, Technical Writing, Travel Writing, English-A, Partition Lit, Business Communication, Contemporary India: Women and Empowerment* and *Intermediate English*.
- 3) Less than 5.00% students scored first division in seven papers *Indian Classical Literature, American Literature, British Literature 18C, Advanced English, British Literature 19C, Translation studies and Principles of translation* and *Modern Indian Writing in English Translation*.
- 4) The students have secured relatively less marks in semester I than all the other semesters.

RESULT ANALYSIS: Department of Hindi

Academic year 2017-18

The results analysis of the Department of Hindi students is a blend of students' performance. Few semesters have witnessed better results than others. The results have also varied with distinct subjects. Some subjects have shown a bias scoring pattern of students' performance. Whereas several subjects have shown an evenly scattered marks' pattern. After gathering the data of students' marks on yearly basis, they have been detailed further. It has also been observed that a students' performance may pragmatically be analyzed by classifying them into three groups as 0-50%, 50-60% and 60-100%. Further, the number of students who have appeared for the examination have also been listed in the table.

The result has been discussed in the tabular layout in regards to the marks secured pattern of students' examination results. The percentage approach has been considered to analyze the result where the number of students has been categorically listed among three groups. The students' performance as percentage number of students has been highlighted among the same three groups.

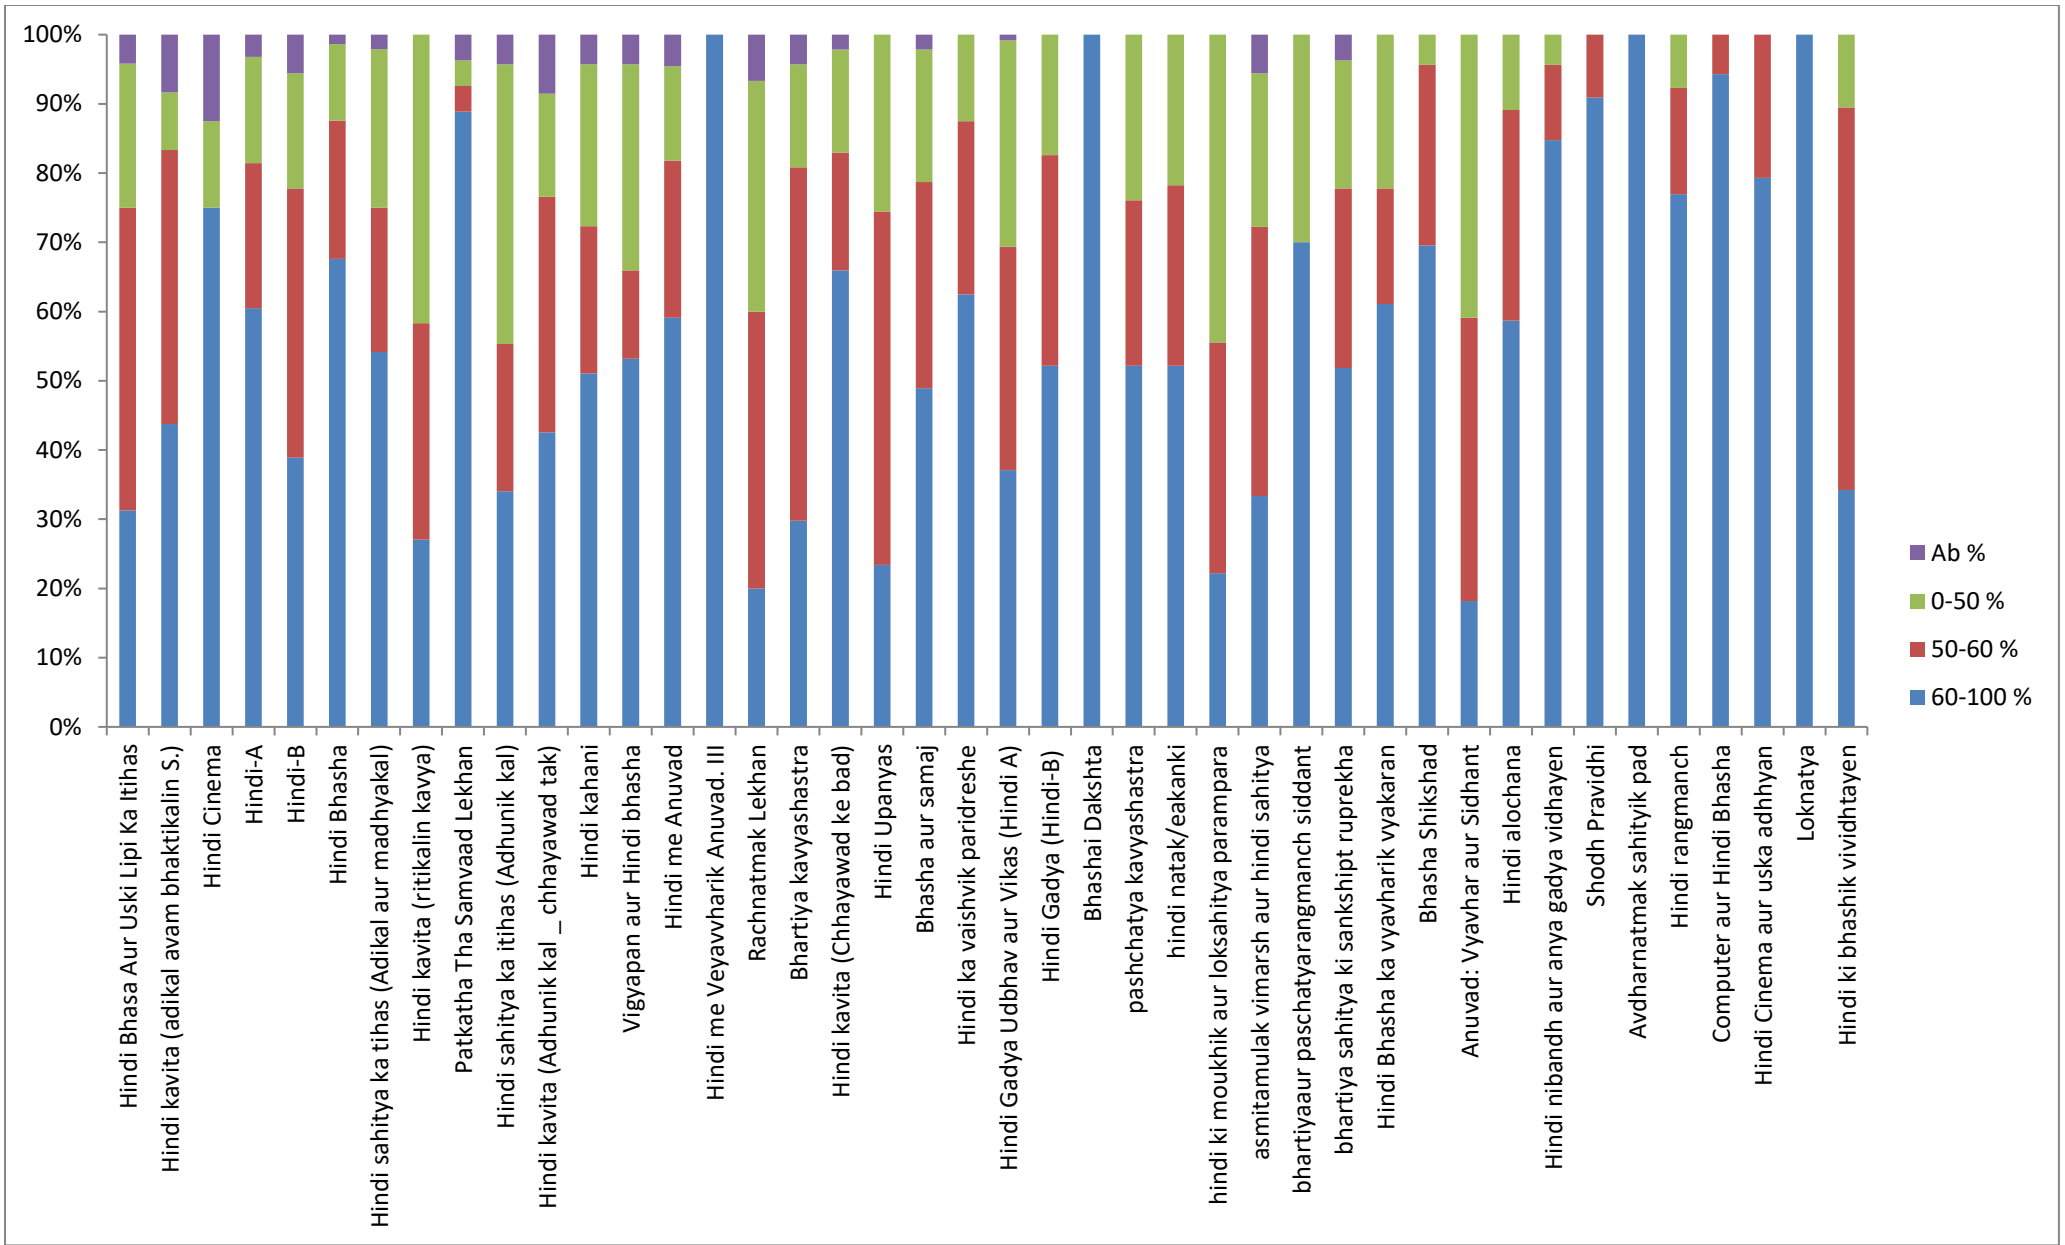

The result analysis key highlights are:

- 1) In the course of BA(Hons) Hindi, 48, 47 and 46 students have enrolled for examination in first, second and third year respectively in the academic year 2017-18.
- 2) All the students have secured first division in four papers *Hindi me Veyavharik Anuvad. III, Bhashai Dakshata, Avdharnatmak sahityik pad* and *Loknatya*.
- 3) More than 80.00% students secured first division in four papers *Hindi me Computer aur Hindi Bhasha, Shodh Pravidhi, Patkatha Tha Samvaad Lekhan* and *Hindi nibandh aur anya gadya vidhayen*.
- 4) Only around 18.18% students secured first division in *Anuvad: Vyavhar aur Sidhant*. This paper could have shown better students' performance.

RESULT ANALYSIS: Department of Maths

Academic year 2017-18

The results analysis of the Department of Maths students is a blend of students' performance. Few semesters have witnessed better results than others. The results have also varied with distinct subjects. Some subjects have shown a bias scoring pattern of students' performance. Whereas several subjects have shown an evenly scattered marks' pattern. After gathering the data of students' marks on yearly basis, they have been detailed further. It has also been observed that a students' performance may pragmatically be analyzed by classifying them into three groups as 0-50%, 50-60% and 60-100%. Further, the number of students who have appeared for the examination have also been listed in the table.

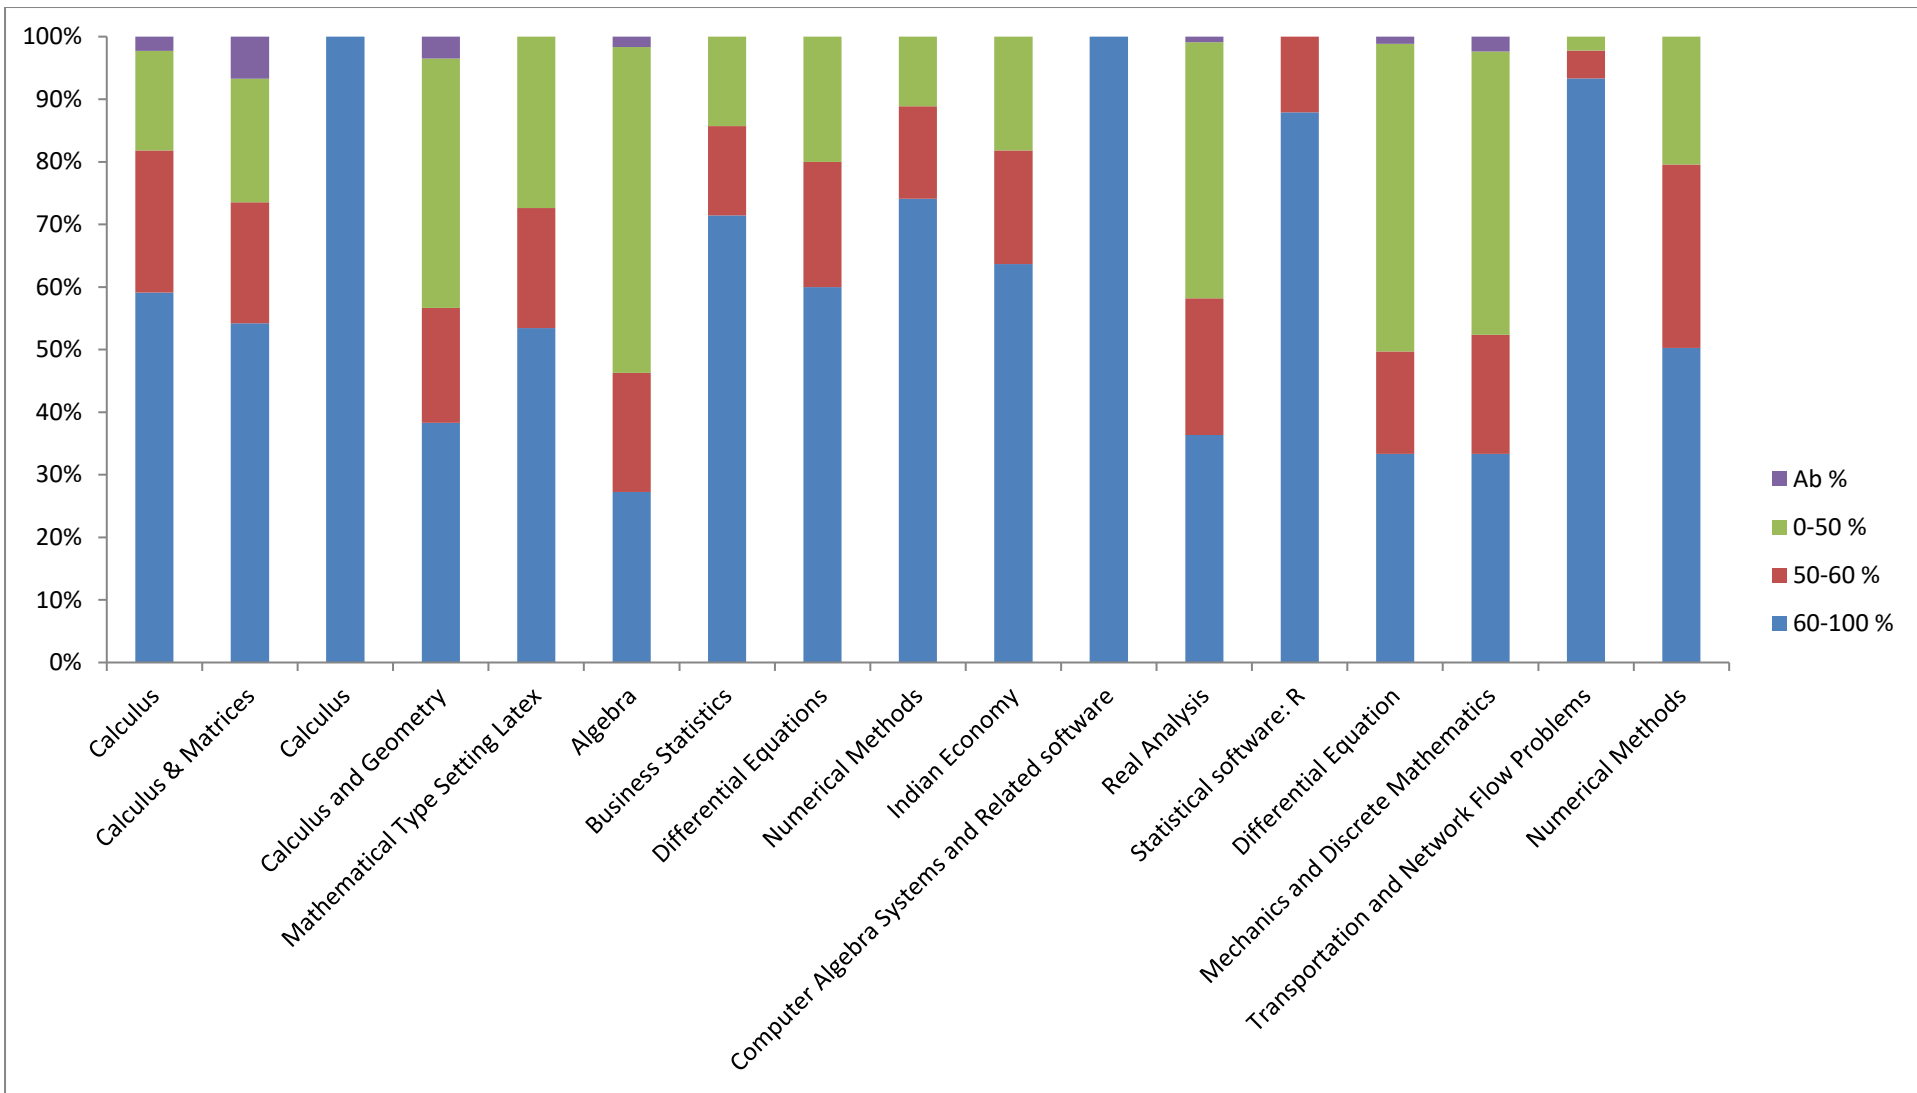

The result has been discussed in the tabular layout in regards to the marks secured pattern of students' examination results. The percentage approach has been considered to analyze the result where the number of students has been categorically listed among three groups. The students' performance as percentage number of students has been highlighted among the same three groups.

The result analysis key highlights are:

- 1) For the subjects of Maths, respective students have enrolled for examination in first, second and third year respectively in the academic year 2017-18.
- 2) All the students secured first division in two papers *Calculus and Computer Algebra Systems and Related software*.
- 3) More than 80.00% students secured first division in two papers *Transportation and Network Flow Problems and Statistical software: R*.
- 4) Only around 27.27% students secured first division in the paper *Algebra*.
The students' performance has been relatively average for this paper.

RESULT ANALYSIS: Department of Physics

Academic year 2017-18

The results analysis of the Department of Physics students is a blend of students' performance. Few semesters have witnessed better results than others. The results have also varied with distinct subjects. Some subjects have shown a bias scoring pattern of students' performance. Whereas several subjects have shown an evenly scattered marks' pattern. After gathering the data of students' marks on yearly basis, they have been detailed further. It has also been observed that a students' performance may pragmatically be analyzed by classifying them into three groups as 0-50%, 50-60% and 60-100%. Further, the number of students who have appeared for the examination have also been listed in the table.

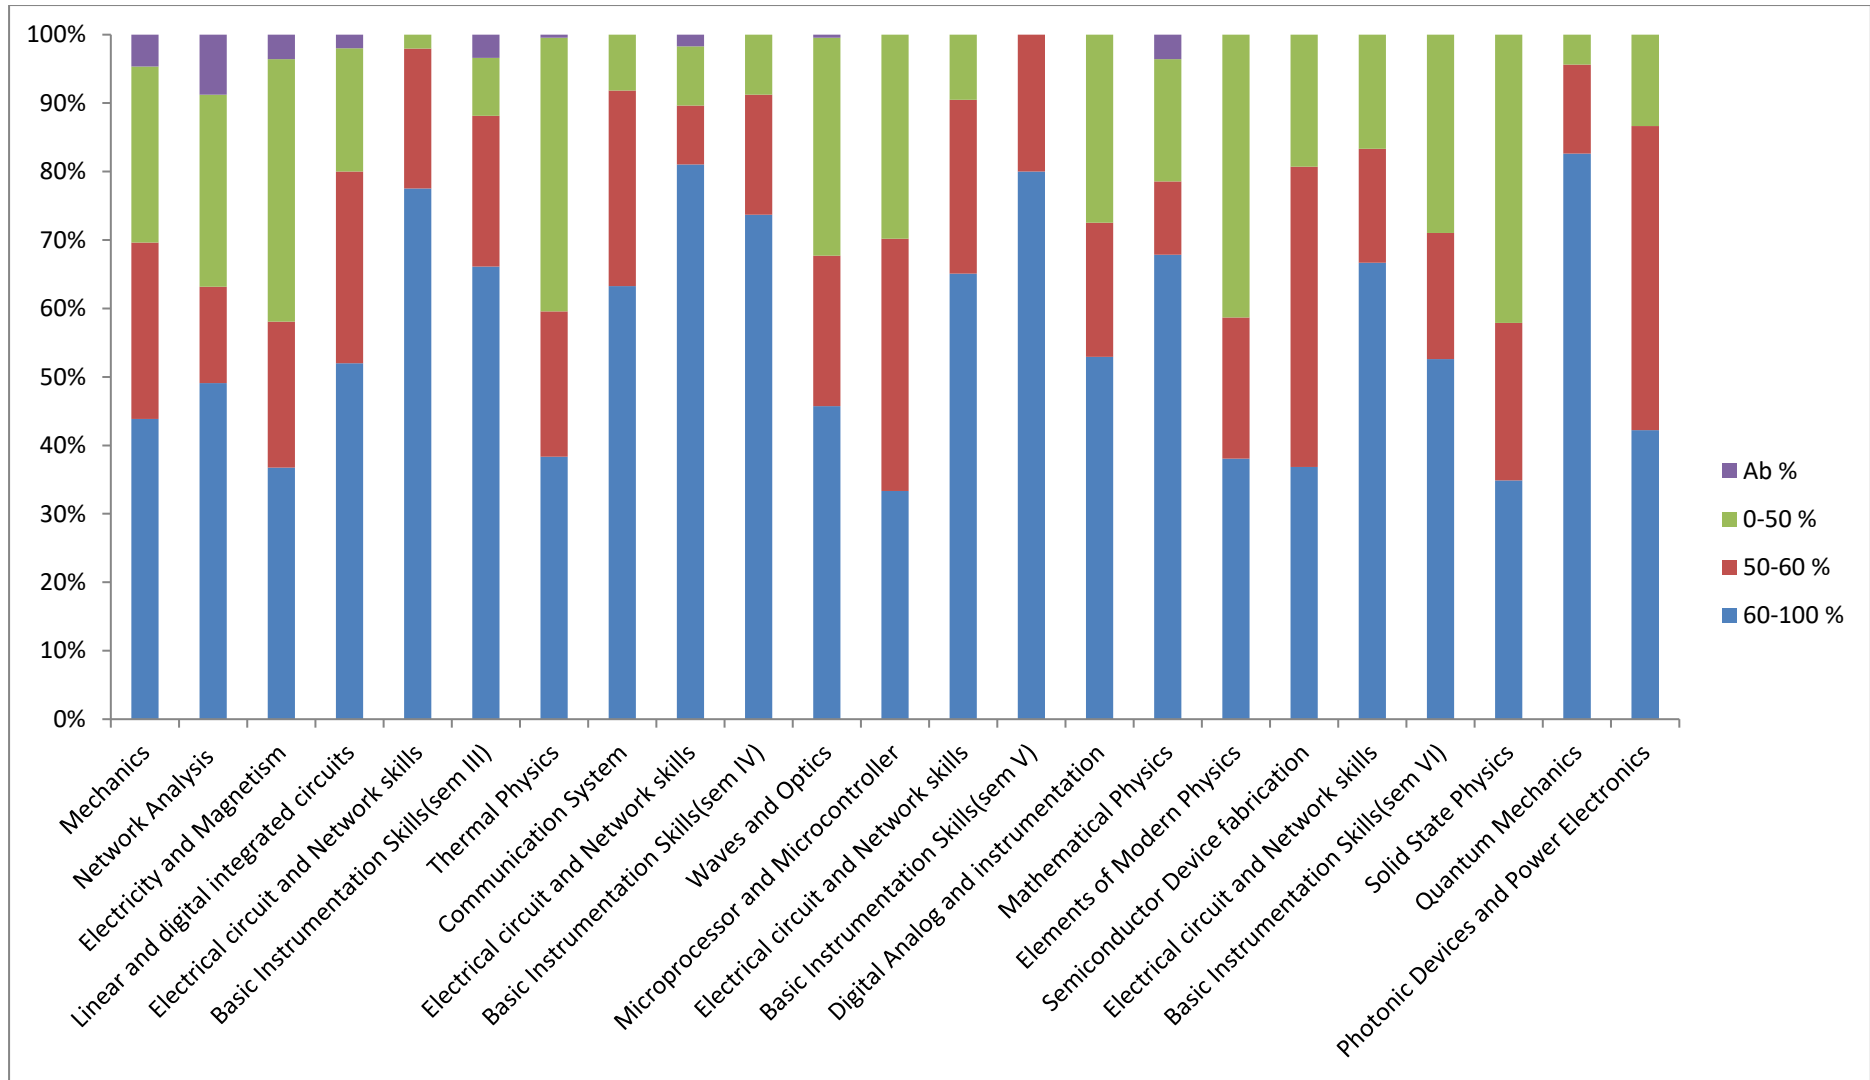

The result has been discussed in the tabular layout in regards to the marks secured pattern of students' examination results. The percentage approach has been considered to analyze the result where the number of students has been categorically listed among three groups. The students' performance as percentage number of students has been highlighted among the same three groups.

The result analysis key highlights are:

- 1) For the subjects of Physics, respective students have enrolled for examination in first, second and third year respectively in the academic year 2017-18.
- 2) More than 70.00% students secured first division in five papers *Quantum Mechanics, Electrical circuit and Network skills, Basic Instrumentation Skills, Electrical circuit and Network skills* and *Basic Instrumentation Skills*.
- 3) Less than 35.00% students secured first division in the two papers *Solid State Physics* and *Microprocessor and Microcontroller*. The students' performance has been relatively average for these papers.

RESULT ANALYSIS: Department of History

Academic year 2017-18

The results analysis of the Department of History students is a blend of students' performance. Few semesters have witnessed better results than others. The results have also varied with distinct subjects. Some subjects have shown a bias scoring pattern of students' performance. Whereas several subjects have shown an evenly scattered marks' pattern. After gathering the data of students' marks on yearly basis, they have been detailed further. It has also been observed that a students' performance may pragmatically be analyzed by classifying them into three groups as 0-50%, 50-60% and 60-100%. Further, the number of students who have appeared for the examination have also been listed in the table.

The result has been discussed in the tabular layout in regards to the marks secured pattern of students' examination results. The percentage approach has been considered to analyze the result where the number of students has been categorically listed among three groups. The students' performance as percentage number of students has been highlighted among the same three groups.

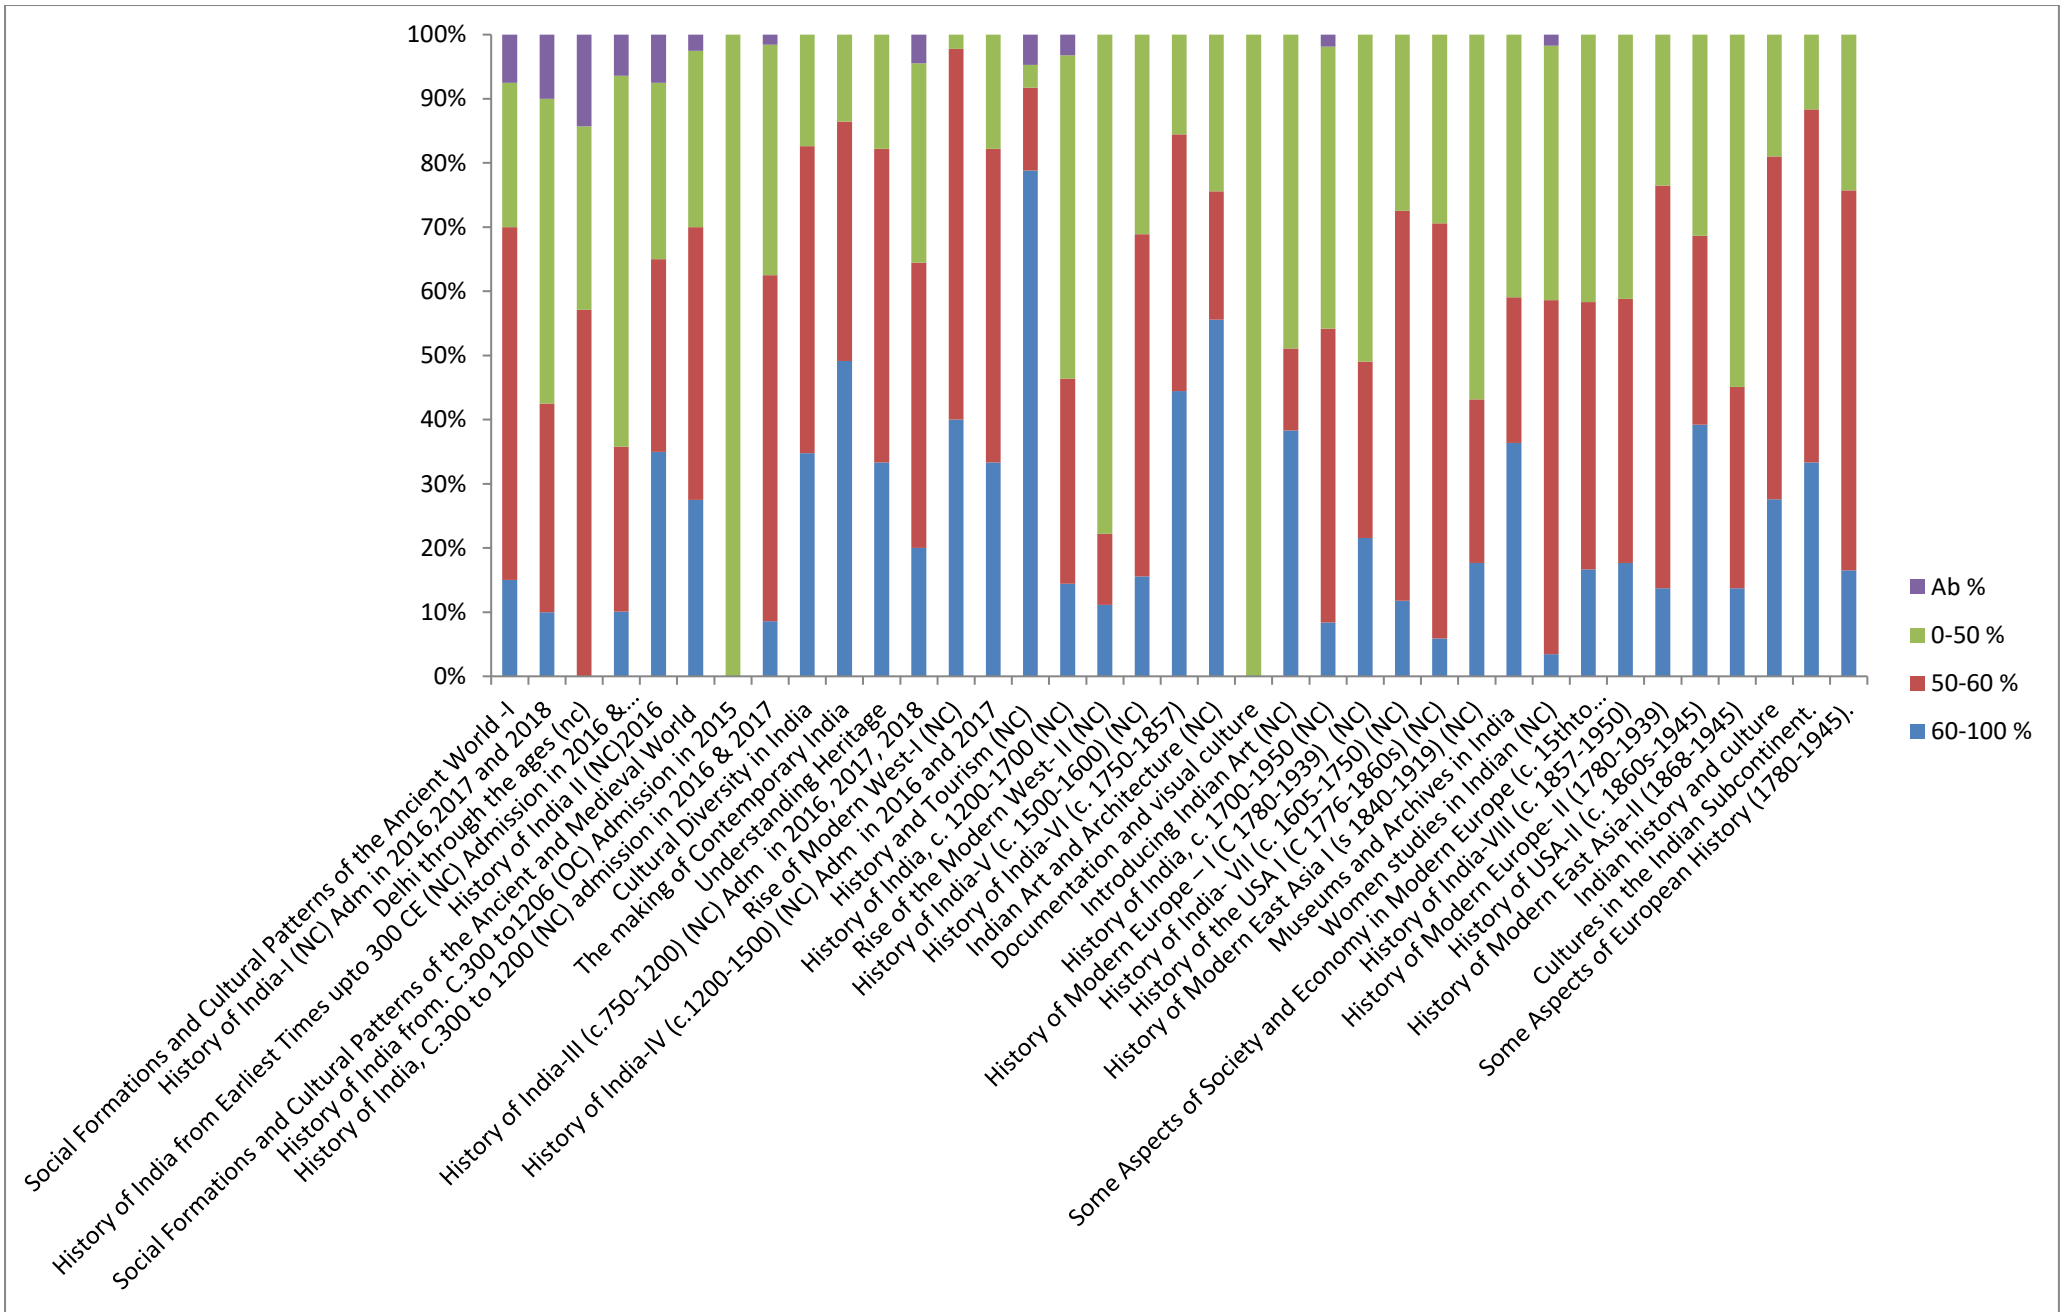

The result analysis key highlights are:

- 1) In the course of BA(Hons) History, 40, 45 and 51 students have enrolled for examination in first, second and third year respectively in the academic year 2017-18.
- 2) More than 40.00% students scored first division in four papers *History and Tourism, Indian Art and Architecture, The making of Contemporary India* and *History of India-VI (c. 1750-1857)*.
- 3) Less than 5.00% students secured first division in the four papers *Women studies in Indian, Delhi through the ages, History of India from. C.300 to1206* and *Documentation and visual culture*. The students' performances have been relatively average for these papers.
- 4) Most of the students have secured second division in the majority of papers.
