RESULT ANALYSIS: B.Com (Hons.)
Academic year 2018-19

The results analysis of the **B.Com (Hons.)** students is a blend of students' performance. Few semesters have witnessed better results than others. The results have also varied with distinct subjects. Some subjects have shown a bias scoring pattern of students' performance. Whereas several subjects have shown an evenly scattered marks' pattern. After gathering the data of students' marks on yearly basis, they have been detailed further. It has also been observed that a students' performance may pragmatically be analyzed by classifying them into three groups as 0-50%, 50-60% and 60-100%. Further, the number of students who have appeared for the examination have also been listed in the table.

The result has been discussed in the tabular layout in regards to the marks secured pattern of students' examination results. The percentage approach has been considered to analyze the result where the number of students has been categorically listed among three groups. The students' performance as percentage number of students has been highlighted among the same three groups.
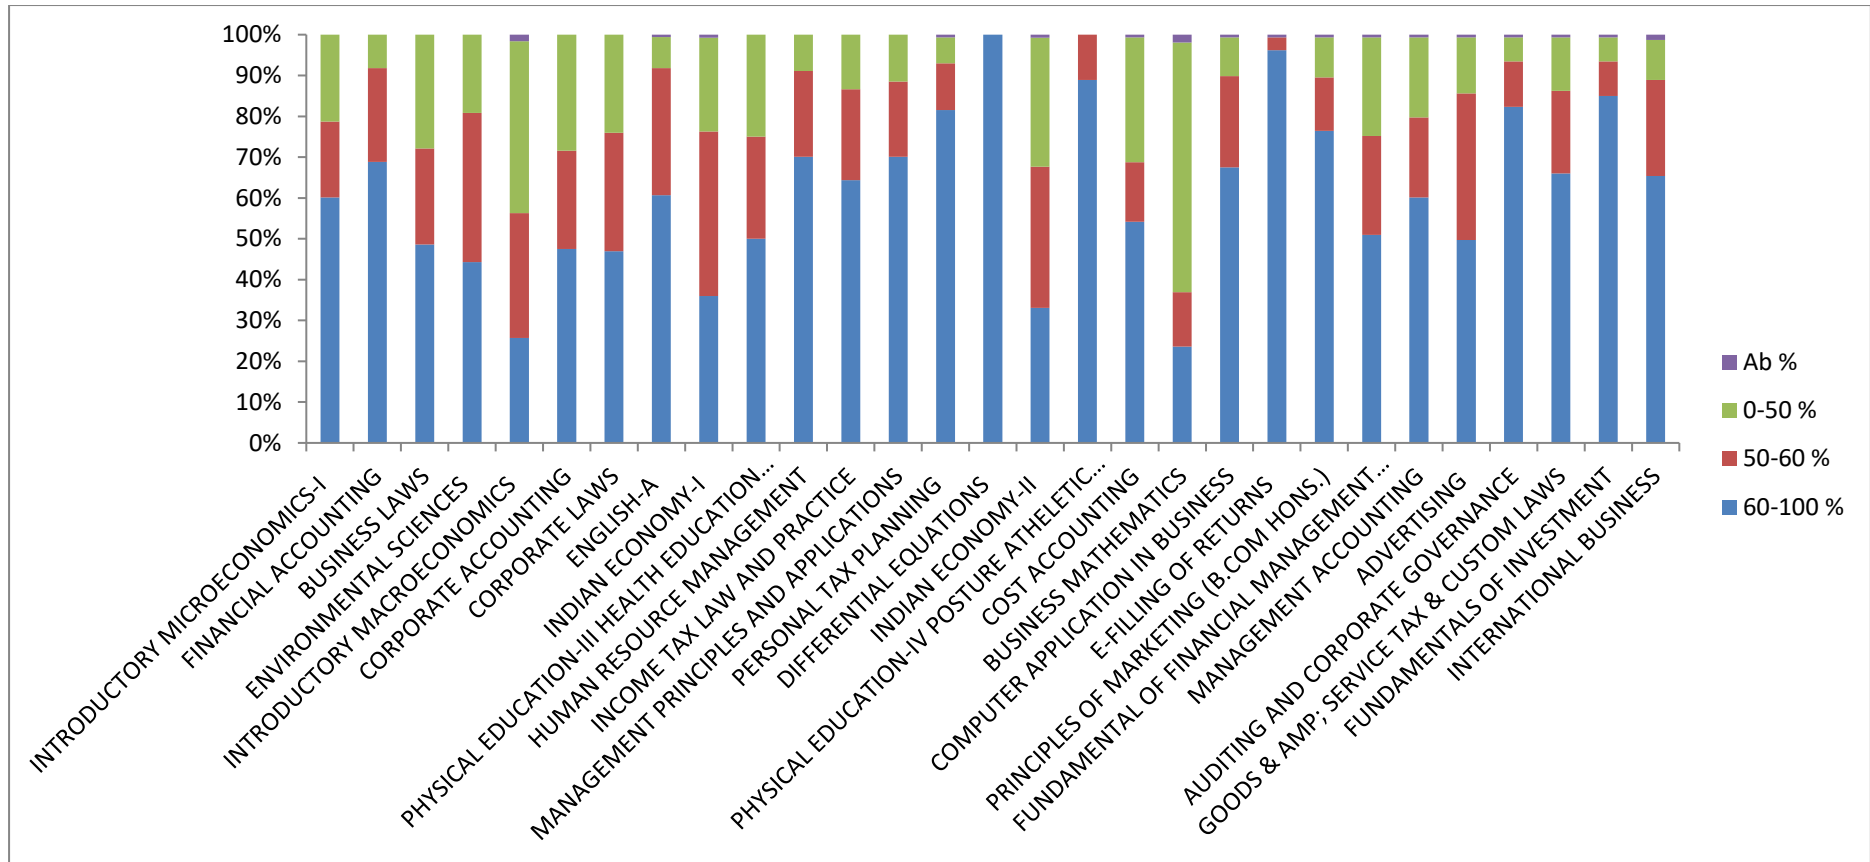

The result analysis key highlights are:

1) In the course B.Com (Hons.), 183, 157 and 153 students have enrolled for examination in first, second and third year respectively in the academic year 2018-19.

2) More than 80.00% students have secured first division in the papers: *Differential equations, E-filling of returns, Physical education-iv posture atheletic and first aid, Fundamentals of investment, Auditing and corporate governance and Personal tax planning.*

3) Less than 30.00% students have scored first division in *Introductory macroeconomics and Business mathematics*. The students' results need to be improved for the overall result of the course.

4) The students' performance has been found to be better in Semester V and VI than in the other semesters.

RESULT ANALYSIS: B.Com (Prog)
Academic year 2018-19

The results analysis of the **B.Com (Prog.)** students is a blend of students' performance. Few semesters have witnessed better results than others. The results have also varied with distinct subjects. Some subjects have shown a bias scoring pattern of students' performance. Whereas several subjects have shown an evenly scattered marks' pattern. After gathering the data of students' marks on yearly basis, they have been detailed further. It has also been observed that a students' performance may pragmatically be analyzed by classifying them into three groups as 0-50%, 50-60% and 60-100%. Further, the number of students who have appeared for the examination have also been listed in the table.

The result has been discussed in the tabular layout in regards to the marks secured pattern of students' examination results. The percentage approach has been considered to analyze the result where the number of students has been categorically listed among three groups. The students' performance as percentage number of students has been highlighted among the same three groups.

The result analysis key highlights are:

1) In the course of B.Com (Prog.), 198, 177 and 149 students have enrolled for examination in first, second and third year respectively in the academic year 2018-19.

2) More than 70.00% students have secured first division in eight papers: *Hindi-C(sem II), Computer application in business, Personal selling and salesmanship, Hindi-A, Principles of micro economics, Principles of marketing, Advertising and Business communication.*

3) Less than 22.00% students have scored first division in *English Language, Principle of Microeconomics and Introduction to Political Theory.* The students' results need to be improved for the overall result of the course.

4) The students' performance has been found to be better in semester V and VI than rest of the semesters.

RESULT ANALYSIS: Department of English

Academic year 2018-19

The results analysis of the Department of English students is a blend of students' performance. Few semesters have witnessed better results than others. The results have also varied with distinct subjects. Some subjects have shown a bias scoring pattern of students' performance. Whereas several subjects have shown an evenly scattered marks' pattern. After gathering the data of students' marks on yearly basis, they have been detailed further. It has also been observed that a students' performance may pragmatically be analyzed by classifying them into three groups as 0-50%, 50-60% and 60-100%. Further, the number of students who have appeared for the examination have also been listed in the table.

The result has been discussed in the tabular layout in regards to the marks secured pattern of students' examination results. The percentage approach has been considered to analyze the result where the number of students has been categorically listed among three groups. The students' performance as percentage number of students has been highlighted among the same three groups.

The result analysis key highlights are:

1) In the course of BA(Hons) English**,** 40, 45 and 41 students have enrolled for examination in first, second and third year respectively in the academic year 2018-19.

2) More than 60.00% students have secured first division in the nine papers: *Technical Writing, Media and Communication Skill, Academic Writing and Composition, Language Literature and Culture, Selection (Poems, Short Stories) from Modern Indian Literature, Business Communication, The Individual and Society, Translation Studies* and *Contemporary India: Women And Empowerment.*

3) Less than 5.00% students have scored first division in seven papers *British Literature: 18th Century, Postcolonial Literatures, Indian Classical Literature, Intermediate English (English-B),Creative Writing Books and Reviews , British Literature: 19th Century* and *Modern Indian Writing In English Translation.* The students' results need to be improved for the overall result of the course.

4) The students' performance has been found to be better in Semester I and II than rest of the semesters.

RESULT ANALYSIS: Department of Hindi
Academic year 2018-19

The results analysis of the Department of Hindi students is a blend of students' performance. Few semesters have witnessed better results than others. The results have also varied with distinct subjects. Some subjects have shown a bias scoring pattern of students' performance. Whereas several subjects have shown an evenly scattered marks' pattern. After gathering the data of students' marks on yearly basis, they have been detailed further. It has also been observed that a students' performance may pragmatically be analyzed by classifying them into three groups as 0-50%, 50-60% and 60-100%. Further, the number of students who have appeared for the examination have also been listed in the table.

The result has been discussed in the tabular layout in regards to the marks secured pattern of students' examination results. The percentage approach has been considered to analyze the result where the number of students has been categorically listed among three groups. The students' performance as percentage number of students has been highlighted among the same three groups.

The result analysis key highlights are:

1) In the course of BA(Hons) Hindi, 46, 47 and 46 students have enrolled for examination in first, second and third year respectively in the academic year 2018-19.

2) More than 80.00% students have secured first division in these seven papers:*Hindi Gadhya Ka Udbav Aur Vikas Hindi-C, Bhasha Dakshata, Hindi Bhasha Aur Sampreshan, Loknatya, Bhartiye Sahitya: Pathparak Adhyan, Shodh-Pravidhi And Avdharnatmak Sahitiyik* .

3) Less than 20.00% students have scored first division in five papers :*Hindi bhasha aur uski lipi ka itihas, Anuvad: vyavhar aur Siddhanth, Hindi-A, Vigyapan aur hindi bhasha* and *Bhartiye avem pshchtey rangmanch sidhanth.* The students' results need to be improved for the overall result of the course.

4) The students' performance has been found to be better in semester IV and VI than rest of the semesters.

RESULT ANALYSIS: Department of History
Academic year 2018-19

The results analysis of the Department of History students is a blend of students' performance. Few semesters have witnessed better results than others. The results have also varied with distinct subjects. Some subjects have shown a bias scoring pattern of students' performance. Whereas several subjects have shown an evenly scattered marks' pattern. After gathering the data of students' marks on yearly basis, they have been detailed further. It has also been observed that a students' performance may pragmatically be analyzed by classifying them into three groups as 0-50%, 50-60% and 60-100%. Further, the number of students who have appeared for the examination have also been listed in the table.

The result has been discussed in the tabular layout in regards to the marks secured pattern of students' examination results. The percentage approach has been considered to analyze the result where the number of students has been categorically listed among three groups. The students' performance as percentage number of students has been highlighted among the same three groups.

The result analysis key highlights are:

1) In the course of BA(Hons) History, 48, 40 and 45 students have enrolled for examination in first, second and third year respectively in the academic year 2018-19.

2) More than 75.00% students have secured first division in five papers: *History of India-I, Introducing Indian Art, Social Formation and Cultural Patterns of the Ancient World-I, Archives and Museum* and *History of India-VI (C. 1750-1857).*

3) Less than 5.00% students have scored first division in *Issues In World History-II (The 20th Century), History of India-IV (C1200-1500) and History of India from the Earliest Time upto 300 CE.* The students' results need to be improved for the overall result of the course.

4) The students' performance has been found to be better in semester IV than rest of the semesters.

RESULT ANALYSIS: Department of Maths
Academic year 2018-19

The results analysis of the Department of Maths students is a blend of students' performance. Few semesters have witnessed better results than others. The results have also varied with distinct subjects. Some subjects have shown a bias scoring pattern of students' performance. Whereas several subjects have shown an evenly scattered marks' pattern. After gathering the data of students' marks on yearly basis, they have been detailed further. It has also been observed that a students' performance may pragmatically be analyzed by classifying them into three groups as 0-50%, 50-60% and 60-100%. Further, the number of students who have appeared for the examination have also been listed in the table.

The result has been discussed in the tabular layout in regards to the marks secured pattern of students' examination results. The percentage approach has been considered to analyze the result where the number of students has been categorically listed among three groups. The students' performance as percentage number of students has been highlighted among the same three groups.

The result analysis key highlights are:

1) For the subjects of Maths, respective students have enrolled for examination in first, second and third year respectively in the academic year 2018-19.

2) All the students secured first division in *Calculus* and *Differential Equations.*

3) More than 70.00% students have secured first division in the papers: *Linear algebra, Elements of analysis and Mathematical type setting system latex.*

4) Less than 40.00% students have scored first division in *Real Analysis, Differential Equations and Mechanics* and *Discrete Mathematics.* The students' results need to be improved for the overall result of the course.

5) The students' performance has been found to be better in Semester I, II and III than rest of the semesters.

RESULT ANALYSIS: Department of Physics
Academic year 2018-19

The results analysis of the Physics students is a blend of students' performance. Few semesters have witnessed better results than others. The results have also varied with distinct subjects. Some subjects have shown a bias scoring pattern of students' performance. Whereas several subjects have shown an evenly scattered marks' pattern. After gathering the data of students' marks on yearly basis, they have been detailed further. It has also been observed that a students' performance may pragmatically be analyzed by classifying them into three groups as 0-50%, 50-60% and 60-100%. Further, the number of students who have appeared for the examination have also been listed in the table.

The result has been discussed in the tabular layout in regards to the marks secured pattern of students' examination results. The percentage approach has been considered to analyze the result where the number of students has been categorically listed among three groups. The students' performance as percentage number of students has been highlighted among the same three groups.

The result analysis key highlights are:

1) For the subjects of Physics, respective students have enrolled for examination in first, second and third year respectively in the academic year 2018-19.

2) More than 70.00% students have secured first division in the papers: *Dissertation Project, Basic Instrumental Skill, Basic Instrumental Skill* and *Elective Circuit And Network Skill.*

3) Less than 30.00% students have scored first division in *Communication Electronics* and *Network Analysis & Analog Electronics.* The students' results need to be improved for the overall result of the course.

4) The students' performance has been found to be better in semester VI than all the others semesters.
