RESULT ANALYSIS: B.Com (Hons.)
Academic year 2019-20

The results analysis of the **B.Com (Hons.)** students is a blend of students' performance. Few semesters have witnessed better results than others. The results have also varied with distinct subjects. Some subjects have shown a bias scoring pattern of students' performance. Whereas several subjects have shown an evenly scattered marks' pattern. After gathering the data of students' marks on yearly basis, they have been detailed further. It has also been observed that a students' performance may pragmatically be analyzed by classifying them into three groups as 0-50%, 50-60% and 60-100%. Further, the number of students who have appeared for the examination have also been listed in the table.
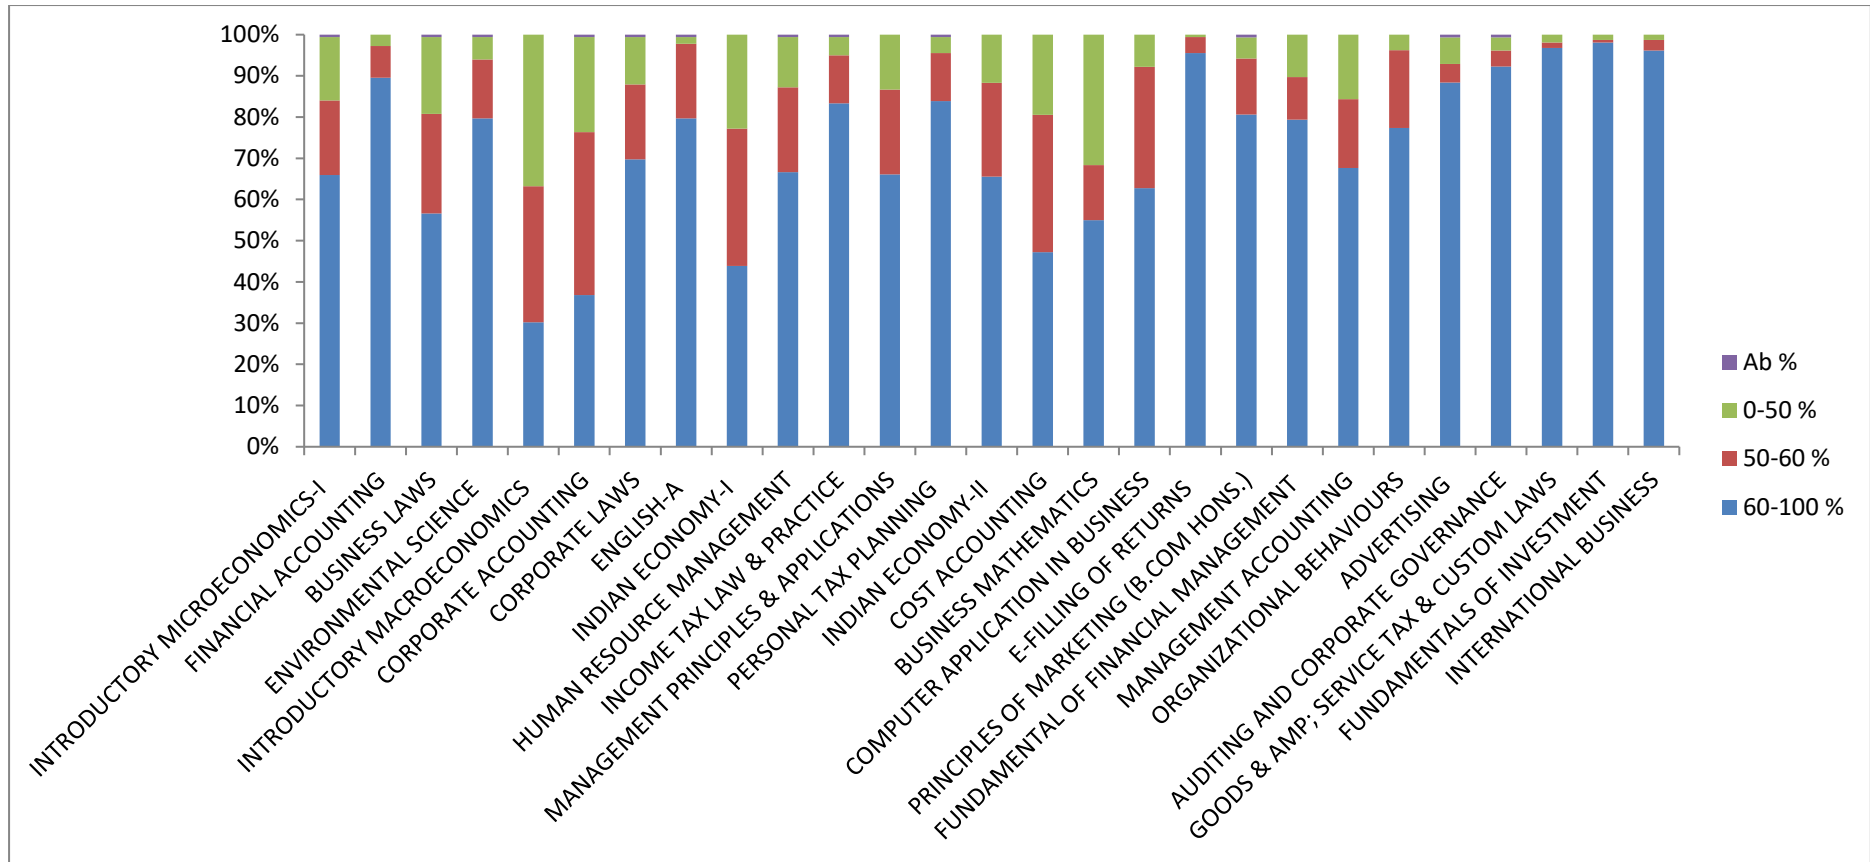

The result has been discussed in the tabular layout in regards to the marks secured pattern of students' examination results. The percentage approach has been considered to analyze the result where the number of students has been categorically listed among three groups. The students' performance as percentage number of students has been highlighted among the same three groups.

The result analysis key highlights are:

1) In the course of B.Com (Hons.), 182,180 and 155 students have enrolled for examination in first, second and third year respectively in the academic year 2019-20.

2) More than 80.00% students have secured first division in the papers: *Fundamentals of investment, Goods & amp; service tax & custom laws, International business, E-filling of returns, Auditing and corporate governance, Financial accounting, Advertising, Personal tax planning , Income tax law & practice* and *Principles of marketing.*

3) Less than 40.00% students have scored first division in *Corporate accounting* and *Introductory macroeconomics* . The students' results need to be improved for the overall result of the course.

4) The students' performance has been found to be better in Semester VI than rest of the semesters.

No. of Papers	Semester	No. of Students	Subject	Sub. Credit	60-100 %	50-60 %	0-50 %	Absent %	Total %

RESULT ANALYSIS: Department of Chemistry
Academic year 2019-20

The results analysis of the Department of Chemistry students is a blend of students' performance. Few semesters have witnessed better results than others. The results have also varied with distinct subjects. Some subjects have shown a bias scoring pattern of students' performance. Whereas several subjects have shown an evenly scattered marks' pattern. After gathering the data of students' marks on yearly basis, they have been detailed further. It has also been observed that a students' performance may pragmatically be analyzed by classifying them into three groups as 0-50%, 50-60% and 60-100%. Further, the number of students who have appeared for the examination have also been listed in the table.

The result has been discussed in the tabular layout in regards to the marks secured pattern of students' examination results. The percentage approach has been considered to analyze the result where the number of students has been categorically listed among three groups. The students' performance as percentage number of students has been highlighted among the same three groups.

The result analysis key highlights are:

1) For the subjects of Chemistry, respective students have enrolled for examination in first, second and third year respectively in the academic year 2019-20.

2) More than 60.00% students have secured first division in the papers: *Atomic structure, bonding, general organic chemistry & aliphatic hydrocarbons, Green method in chemistry* and *Organometallics, bio-inorganic chemistry, polynuclear hydrocarbons and UV, IR.*

3) Less than 40.00% students have scored first division in *Solutions, phase equilibrium, conductance, electrochemistry & functional group organic chemistry-II* and *Chemical energetic equilibria & functional group organic chemistry-I.* The students' results need to be improved for the overall result of the course.

4) The students' performance has been found to be better in Semester VI than rest of the semesters.

The result has been discussed in the tabular layout in regards to the marks secured pattern of students' examination results. The percentage approach has been considered to analyze the result where the number of students has been categorically listed among three groups. The students' performance as percentage number of students has been highlighted among the same three groups.

The result analysis key highlights are:

1) In the course of BA(Hons) Economics, 36, 61 and 37 students have enrolled for examination in first, second and third year respectively in the academic year 2019-20.

2) All the enrolled students successfully bagged First division in the three papers: *Introductory Macroeconomics, Indian Economy-I* and *Indian Economy – II*.

3) More than 80.00% students have secured first division in the papers: *Money and Financial Markets, Economic Development and Policy In India-II, Indian Economy-II, Development Economics-II, Principles of Macroeconomics* and *Indian Economy-I* .

4) Less than 30.00% students have scored first division in *Intermediate Microeconomics-I* and *Political Economy-I.* The students' results need to be improved for the overall result of the course.

5) The students' performance has been found to be better in Semester VI than rest of the semesters.

RESULT ANALYSIS: Department of English

Academic year 2019-20

The results analysis of the Department of English students is a blend of students' performance. Few semesters have witnessed better results than others. The results have also varied with distinct subjects. Some subjects have shown a bias scoring pattern of students' performance. Whereas several subjects have shown an evenly scattered marks' pattern. After gathering the data of students' marks on yearly basis, they have been detailed further. It has also been observed that a students' performance may pragmatically be analyzed by classifying them into three groups as 0-50%, 50-60% and 60-100%. Further, the number of students who have appeared for the examination have also been listed in the table.

The result has been discussed in the tabular layout in regards to the marks secured pattern of students' examination results. The percentage approach has been considered to analyze the result where the number of students has been categorically listed among three groups. The students' performance as percentage number of students has been highlighted among the same three groups.

The result analysis key highlights are:

1) In the course of BA(Hons) English, 45,40 and 42 students have enrolled for examination in first, second and third year respectively in the academic year 2019-20.

2) All the enrolled students have secured first division in the paper *Business Communication.*

3) More than 60.00% students have secured first division in the papers: *Technical writing, Literary theory, Literary criticism, Postcolonial literatures, Selection (poem, short stories) from modern Indian literature* and *Soft Skill.*

4) Less than 5.00% students have scored first division in *European Classical Literature, British Poetry and Drama: 14th To 17th Centuries* and *Indian Classical Literature.* The students' results need to be improved for the overall result of the course.

5) The students' performance has been found to be better in Semester V and VI than rest of the semesters.

RESULT ANALYSIS: Department of Hindi
Academic year 2019-20

The results analysis of the Department of Hindi students is a blend of students' performance. Few semesters have witnessed better results than others. The results have also varied with distinct subjects. Some subjects have shown a bias scoring pattern of students' performance. Whereas several subjects have shown an evenly scattered marks' pattern. After gathering the data of students' marks on yearly basis, they have been detailed further. It has also been observed that a students' performance may pragmatically be analyzed by classifying them into three groups as 0-50%, 50-60% and 60-100%. Further, the number of students who have appeared for the examination have also been listed in the table.

The result has been discussed in the tabular layout in regards to the marks secured pattern of students' examination results. The percentage approach has been considered to analyze the result where the number of students has been categorically listed among three groups. The students' performance as percentage number of students has been highlighted among the same three groups.

The result analysis key highlights are:

1) In the course of BA(Hons) Hindi, 55,47 and 45 students have enrolled for examination in first, second and third year respectively in the academic year 2019-20.

2) More than 90.00% students have secured first division in the papers: *Hindi-C, Avdharnatmak sahitiyik, Bhasha shikshan, Hindi ki mokhik aur lok sahitya parmpera, Loknatya* and *Hindi Cinema Aur Uska Adhyayan* .

3) Less than 20.00% students have scored first division in the two papers: *Bhartiya Kavyashastra* and *Hindi Kavita (Adikaal Avyam Bhaktikalin Kavye).* The students' results need to be improved for the overall result of the course.

4) The students' performance has been found to be better in semester V and VI than rest of the semesters.

RESULT ANALYSIS: Department of History
Academic year 2019-20

The results analysis of the Department of History students is a blend of students' performance. Few semesters have witnessed better results than others. The results have also varied with distinct subjects. Some subjects have shown a bias scoring pattern of students' performance. Whereas several subjects have shown an evenly scattered marks' pattern. After gathering the data of students' marks on yearly basis, they have been detailed further. It has also been observed that a students' performance may pragmatically be analyzed by classifying them into three groups as 0-50%, 50-60% and 60-100%. Further, the number of students who have appeared for the examination have also been listed in the table.

The result has been discussed in the tabular layout in regards to the marks secured pattern of students' examination results. The percentage approach has been considered to analyze the result where the number of students has been categorically listed among three groups. The students' performance as percentage number of students has been highlighted among the same three groups.

The result analysis key highlights are:

1) In the course of BA(Hons) History, 60, 43 and 38 students have enrolled for examination in first, second and third year respectively in the academic year 2019-20.

2) All the enrolled students have secured first division in the paper *Delhi through the Ages: The Making of its Early Modern History* .

3) More than 70.00% students have secured first division in these seven papers: *Popular Culture, History of India-VIII (c.1857-1950), History and tourism, Delhi through ages: the making of its earlier modern history, Inequality and differences, Indian art and architecture and Issues in world history-II (20th century).*

4) Less than 10.00% students have scored first division in the three papers: *History of the USA: independence to civil war, Delhi through ages from colonial to contemporary times and Contemporary India: women and empowerment.* The students' results need to be improved for the overall result of the course.

5) The students' performance has been found to be better in Semester VI than rest of the semesters.

RESULT ANALYSIS: Department of Maths
Academic year 2019-20

The results analysis of the Department of Maths students is a blend of students' performance. Few semesters have witnessed better results than others. The results have also varied with distinct subjects. Some subjects have shown a bias scoring pattern of students' performance. Whereas several subjects have shown an evenly scattered marks' pattern. After gathering the data of students' marks on yearly basis, they have been detailed further. It has also been observed that a students' performance may pragmatically be analyzed by classifying them into three groups as 0-50%, 50-60% and 60-100%. Further, the number of students who have appeared for the examination have also been listed in the table.

The result has been discussed in the tabular layout in regards to the marks secured pattern of students' examination results. The percentage approach has been considered to analyze the result where the number of students has been categorically listed among three groups. The students' performance as percentage number of students has been highlighted among the same three groups.

The result analysis key highlights are:

1) For the subjects of Maths, respective students have enrolled for examination in first, second and third year respectively in the academic year 2019-20.

2) All the enrolled students have secured first division in the papers: *Calculus, Linear algebra* and *Data analysis*.

3) More than 90.00% students have secured first division in the two papers: *Numerical methods* and *Differential equations.*

4) Less than 30.00% students have scored first division in three papers *Real analysis, Differential equations* and *Algebra.* The students' results need to be improved for the overall result of the course.

5) The students' performance has been found to be better in Semester VI than rest of the semesters.

RESULT ANALYSIS: Department of Political Science Academic year 2019-20

The results analysis of the Department of Political Science students is a blend of students' performance. Few semesters have witnessed better results than others. The results have also varied with distinct subjects. Some subjects have shown a bias scoring pattern of students' performance. Whereas several subjects have shown an evenly scattered marks' pattern. After gathering the data of students' marks on yearly basis, they have been detailed further. It has also been observed that a students' performance may pragmatically be analyzed by classifying them into three groups as 0-50%, 50-60% and 60-100%. Further, the number of students who have appeared for the examination have also been listed in the table.

The result has been discussed in the tabular layout in regards to the marks secured pattern of students' examination results. The percentage approach has been considered to analyze the result where the number of students has been categorically listed among three groups. The students' performance as percentage number of students has been highlighted among the same three groups.

The result analysis key highlights are:

1) In the course of BA(Hons) Political Science, 59, 54 and 41 students have enrolled for examination in first, second and third year respectively in the academic year 2019-20.

2) All the enrolled students have secured first division in the two papers: *Yours law your right and Peace and conflict resolution*

3) More than 80.00% students have secured first division in the eight papers: *Global politics, Public policy in India, Human right and gender environment, Political process and institutions in comparative perspective, India's foreign policy in a globalizing world, Indian political thought-II, Introduction to comparative government and politics* and *Conflict and peace building.*

4) Less than 30.00% students have scored first division in *Nationalism in India, Democratic awareness through legal literacy, Politics of globalization and Administration and public policy* . The students' results need to be improved for the overall result of the course.
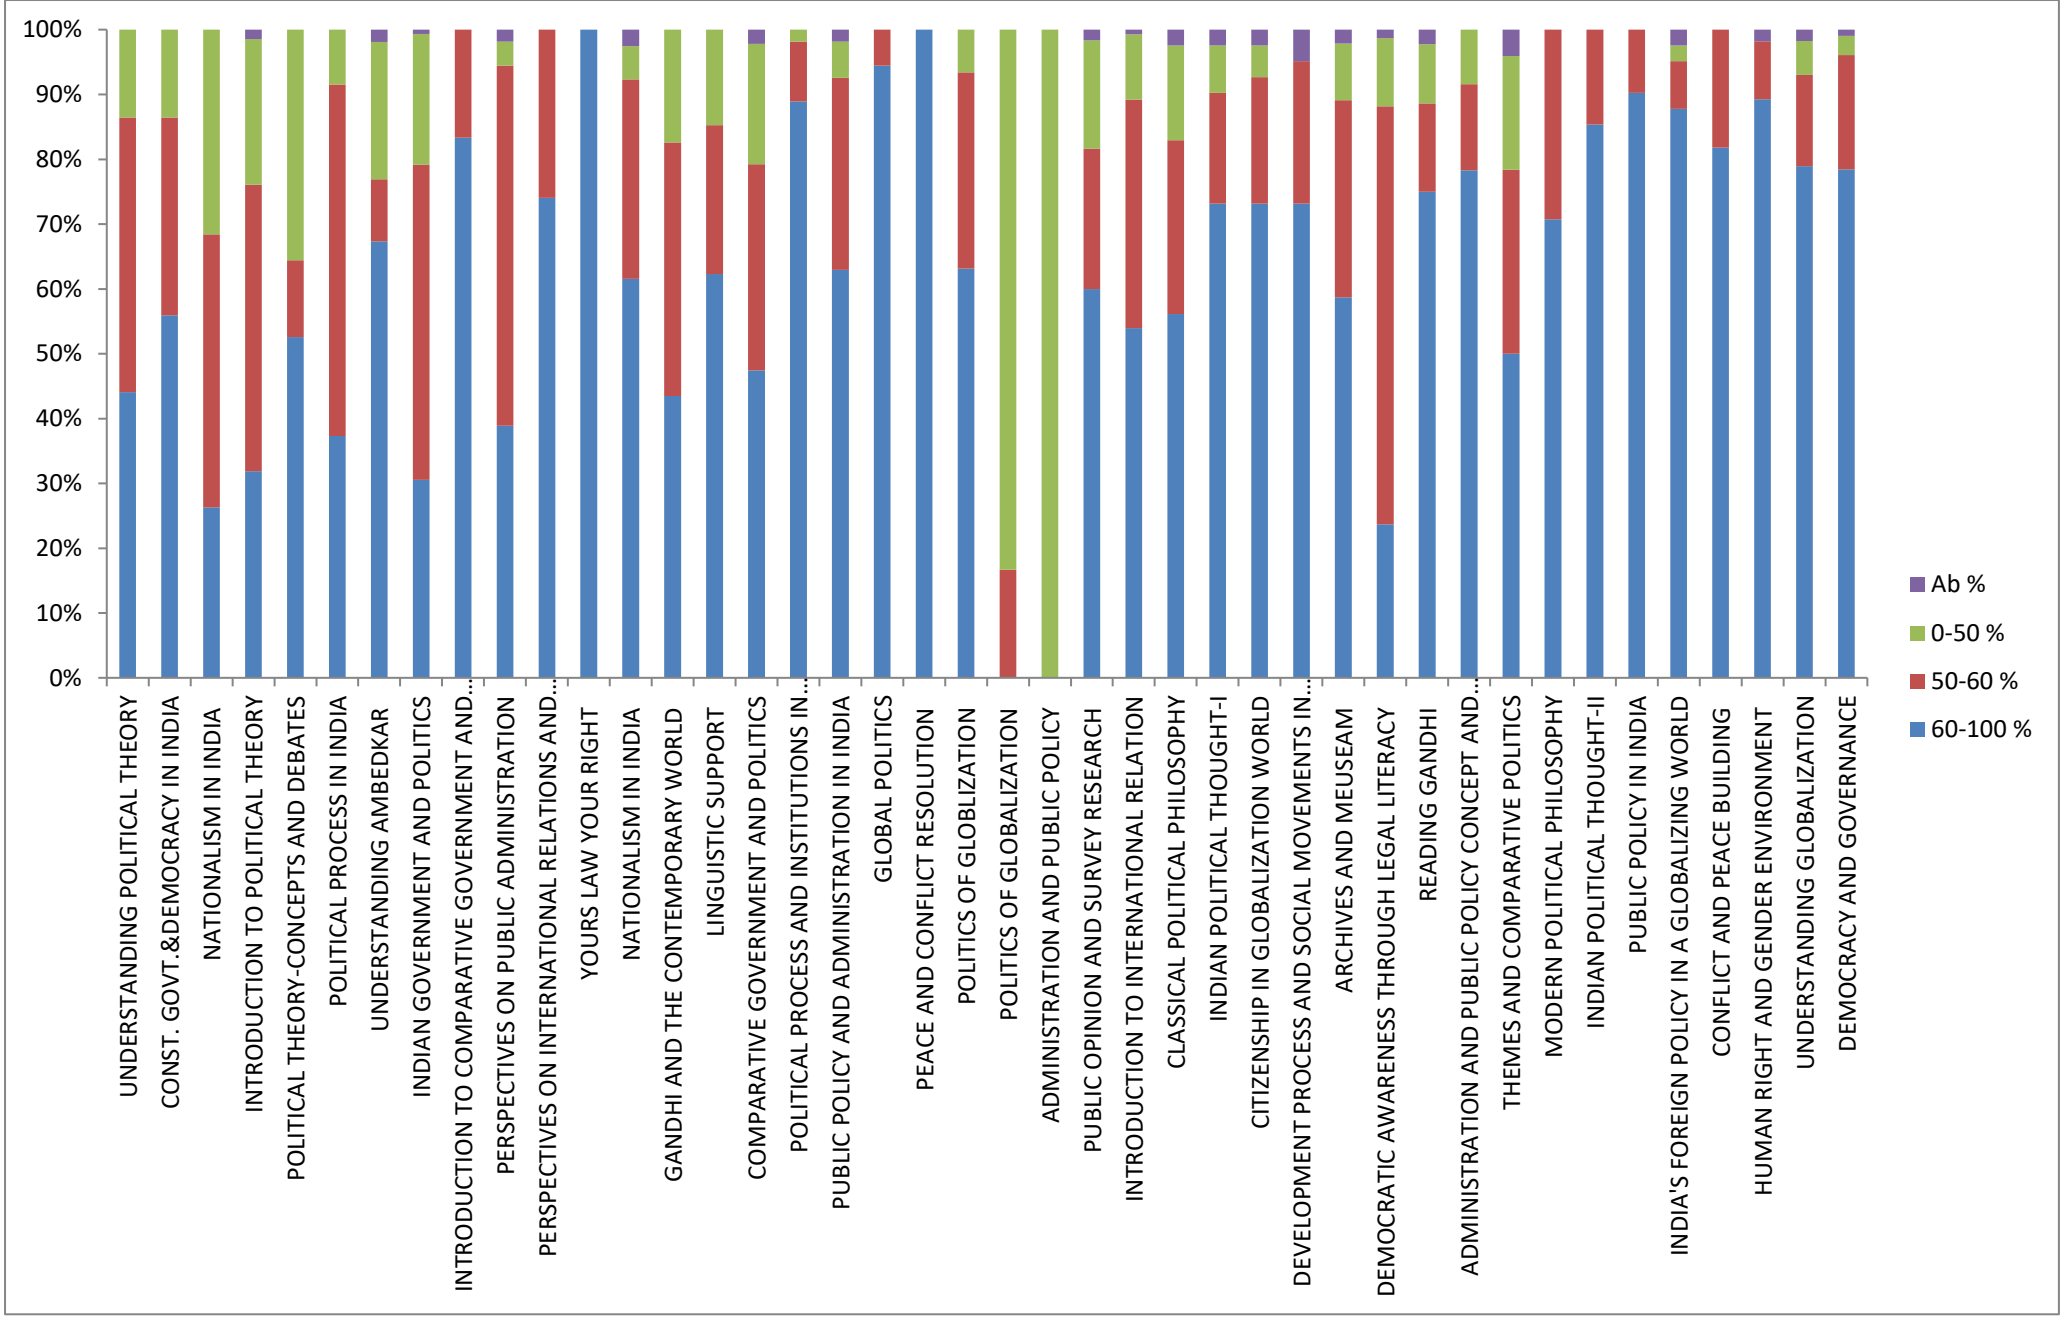

5) The students' performance has been found to be better in Semester VI than rest of the semesters.
