

## Title of the Event: Importance of Wetland and water

This year the Theme of Earth day was 'Restore our Earth' which focuses not only on the need to reduce our impact on the planet as we recover from the effects of covid19, but also we can take some measures to control damage to our Planet. In order to knows the Earth and its ecosystems we need to protect the earth and to enhance people's livelihoods, counteract climate change, and stop the collapse of biodiversity. On eve of “Earth Day” Centre for Eco club members motivate students to engage in environmentally- conscious practices in collaboration with IQAC, SLC and organized a poster making competition through Google-meet. Theme of the event was “Importance of wetlands and water.” The aim was to aware the youth about the need of hour how wetlands and water are essential part of our life and how we can take some measures to control damages to our planet. Almost 30 students participated in this competition from various schools/colleges of different parts of the country.
