

SEMINAR REPORT ON SUSTAINABLE LIVELIHOOD FOR DIFFERENTLY-ABLED

The **Enabling Unit** of Shyam Lal College in collaboration with the **The Placement Cell** organized a seminar on the topic, "Sustainable Livelihood for Differently Abled" on **March 23, 2017**. The event took place in the conference room of the college, in an endeavour to empower its PwD (Persons with Disabilities) students.

The idea behind the seminar was to create greater awareness of the various enabling factors and obstacles that can affect the promotion of employment opportunities and sustainable livelihoods for persons with disabilities. They often face the problem of inclusion and many others. It was therefore very essential for the The Placement Cell of SLC to come up with a platform to have a well-learned gathering which would provide valuable and knowledgeable insights for the same.

The session was presided over by the resource persons, **Ms. Pooja** and **Mr. Shalesh** of Dr. Reddy's Foundation, who delivered talks and presentations and commended the whole gathering for their high spirits. The Foundation represented the CSR initiative of Dr. Reddy's Laboratory. The Foundation was apprised about the differently able-friendly initiatives of Shyam Lal College through Mr. Rizvan and Ms. Anchal, both alumni of SLC who have been having a close association with the Foundation for the last 3 years.

This crucial seminar was witnessed by a myriad of students who were elated with the innovative suggestions and ideas that were discussed in the session by the speakers. The focus was on an 'Integrated Education' that would not only facilitate the academic progress of the students but help them build a happy, healthy and positive approach to life.

Following this speech, there was a wonderful interactive session where the audience interacted with the speakers and clarified their doubts.

The seminar ended on a positive note and was a successful one with the constant support of our respected Principal Sir, Prof. Rabi Narayan Kar. He was thankful for the valuable inputs delivered by the speakers and was appreciative of the commendable efforts taken by the Convener, Mr. Anil Khurana, Mrs. Simple Arora, Mrs. Jyoti Sindhu, and other learned Faculty members. He appreciated the efforts of The Placement Cell team for initiating such a knowledgeable and informative session for the students and help them reach great heights of success. 55 students attended the seminar.
