

National Service Scheme
Report on
“Eco Friendly Products” competition
under the theme “Best Out of Waste”

26th February, 2024

The NSS unit of Shyam Lal College organized a special exhibition of eco friendly products under the theme "Best out of Waste" during Pushpmahotsav. The goal was to show how we can reuse and recycle stuff to help the environment. Students made cool things like decorations and useful items from old stuff like bottles, newspapers, and more.

In total 20 NSS volunteers took part in this. They showed their cool creations to visitors, who learned new ways to be eco-friendly. Judges looked at how creative and smart the creations were, and if they matched the theme of helping the Earth. The competition made people think about how they can use old stuff in new ways. It showed that we can all do our part to make the world better. The Best out of Waste exhibition was a big success. It showed that with a little creativity, we can help the environment and have fun doing it.

The following groups were the Winners of this

1st Place:
