

## **Placement Cum Skill Based Training Program**

**30<sup>th</sup> August 2018**

Objective of the Skill India program is to provide adequate training in market-relevant skills to the youth of India. It also aims to create opportunities for the development of talent within the country and improve the overall scope and space for underdeveloped sectors. When done right, skills development can reduce un- and underemployment, increase productivity, and improve standards of living. Helping people develop and update their skills makes economic sense. The Skill Development Cell, SLC (University of Delhi) organized a Placement cum Skill based Training Program in collaboration with Bombay Stock Exchange Institute Limited on 30<sup>th</sup> August'18. 80 students participated in the program with great zest and enthusiasm. They were overwhelmed after attending the program. In the program students were encouraged and groomed professionally to contribute substantially to India's industrialization and economic growth. Program raised the self confidence of the students. They were equipped with skills that might help them to grab a lucrative job and lead a decent life ahead.
