

Eco-club (the_last_leaf) Shyam Lal College
Bird feeders
In collaboration with
Department of Environment, Government of NCT, Delhi

The summer is here and as temperature increases, we all look for various ways to cool ourselves. But what about the animals and the birds? The summers are never easy for free birds and stray animals. They also feel thirsty and it is very hard for them to find drinking water plenty of times. With the same thought in mind, our team of 20 volunteers Swacchta Action Plan (SAP) and Eco-club have come up with a solution to help out the birds to beat the summer heat and runs a campaign under the theme #Only One Earth (a bird feeder for birds) from 15th May - 15th June 2022. In this activity, students make handmade bird feeder to attract common bird species in the campus as well as at their homes. Volunteers fill the pots regularly and ensure that birds in the campus do not suffer from heatstroke and dehydration. It is a wonderful initiative taken by the students. It is heartening to see, when birds drink water from these pots.
