*In collaboration with*  
**Department of Environment, Government of NCT, Delhi**

The Eco Club of Shyam Lal College, in collaboration with the Department of Environment and SAP (Swachhta Action Plan), conducted a three-day awareness drive on noise pollution from December 22<sup>nd</sup> to 24<sup>th</sup>, 2022, both in the college and outside the campus. A team of 20 students visited nearby areas of Seelampur and Shahdara Mandi and organized an awareness drive to promote safe sound. The volunteers communicated directly with auto, bus, and truck drivers and made them aware of the negative impacts of noise pollution on humans and animals through posters, placards, etc. They also enlightened the local people about the harmful effects of noise pollution, which can cause hearing loss, stress, and high blood pressure, among other issues. They didn't stop there; they took the initiative to educate school children about the problems caused by noise pollution. The awakening of the general masses in this respect is a welcome sign and would make our world a haven to live in.
