

Eco-club (the_last_leaf) Shyam Lal College
In collaboration with
Department of Environment, Government of NCT, Delhi

The SLC Eco-Club's initiative to organize eco- friendly Ganesh Chaturthi celebrations on September 19th 2023, with a focus on utilizing biodegradable waste and clay models, underscores the significance of eco-conscious practices during festivals. By embracing these sustainable traditions, the club has not only reduced the festival's ecological impact but has also instilled a profound sense of environmental responsibility within the community, both online and offline. In addition to organizing the event, a dedicated group of 10 students has been actively engaged in online discussions about eco-friendly approaches for sustainability. The SLC Eco-Club's unwavering efforts mark a meaningful step toward a more sustainable and responsible approach to religious and cultural celebrations.

Eco- friendly Ganesh Chaturthi

(19th September, 23)

Dr. Sunaina Zutshi
Co-ordinator, Eco-club

Prof. Rabi Narayan Kar
Principal, SLC
