

Eco-club (the_last_leaf) Shyam Lal College
In collaboration with
Department of Environment, Government of NCT, Delhi

The Eco-Club volunteers of Shyam Lal College are making an effort to encourage students to engage in environmentally responsible practices by reusing leftover paper to create beautiful festival decorations. This initiative, which took place from 4th to 10th of November 2023, on the eve of the festive season, is not just about crafting; it represents a meaningful exploration of how everyday materials, often regarded as waste, can be transformed into something truly beautiful and celebratory. Through this kind of activity, students acquire the value of recycling and resourcefulness and also acknowledge the cultural significance of the festival. 'Festive Reuse: Crafting Magic from Scraps' is more than just a crafting project; it's a lesson in sustainability, cultural appreciation, and the power of imagination, demonstrating that a little creativity can make the world both brighter and greener. A total of 12 students participated in the event and initiated this cause.

(4th to 10th November, 23)

Dr. Sunaina Zutshi
Co-ordinator, Eco-club

Prof. Rabi Narayan Kar
Principal, SLC
