

Eco-club (the_last_leaf) Shyam Lal College (M)

In collaboration with

Department of Environment, Government of NCT, Delhi

The Eco-Club of Shyam Lal College, in collaboration with the Department of Environment, NCT of Delhi, successfully implemented the Tree QR Code Project within the college campus. A team of 5 students piloted the project, which aimed to raise awareness about the importance of trees. The innovative project enables anyone to scan a QR code attached to a tree and access detailed information about the tree, including its species, age, medicinal properties, and environmental benefits. Following its initial success, the project was scaled up and executed from September 25, 2024, to January 15, 2025, promoting environmental awareness and appreciation for the campus's tree cover among students and faculty.
