INNOVATION AND ENTREPRENEURSHIP OUTREACH TOWARDS VIKSIT BHARAT @2047

Faculty Participants – 4

12th February, 2025

Total Students
Participated - 89

OBJECTIVE - Developing a culture of creativity and entrepreneurship among schoolchildren was the main goal of this outreach initiative. The event aimed to improve participants' creative thinking, problem-solving skills, and understanding of entrepreneurship as a feasible career path by including them in contests for poster-making and essay writing. It also sought to give pupils a sense of accountability for helping to create a developed and independent India by 2047.

BENEFITS - The students who took part in the event benefited greatly, They improved their critical thinking and creativity for both academic and personal success by participating in the competition. By encouraging a culture of creativity and entrepreneurship, the event gave students the confidence to investigate these areas as potential career pathways and have a positive impact on society. Students were encouraged to strive for excellence through cooperative setting and also encouraged networking and teamwork, two more crucial elements for upcoming career pursuits. All things considered, the occasion gave students useful skills and motivated them to actively contribute to creating an independent and advanced India by 2047.

INTRODUCTION

On February 12, 2025, the Institution of Innovation Council (IIC) of Shyam Lal College successfully held an Innovation and Entrepreneurship Outreach session at PM SHRI Kendriya Vidyalaya in Shahdara, Delhi, as part of the Viksit Bharat @2047 project. By encouraging creativity, invention, and an entrepreneurial spirit among schoolchildren, this event sought to stimulate young minds. Students were given an engaging forum to share their thoughts and ambitions for a developed India by 2047 through the outreach program.

By 2047, raising awareness of innovation and entrepreneurship as key forces behind India's progress was the main goal of the Innovation and Entrepreneurship Outreach initiative. Through participatory competitions, the event sought to foster innovative thinking, improve problem-solving abilities, and inculcate a sense of accountability for creating a developed and independent country. According to the Ministry of Education, this program supports the country's goal of encouraging young people to be innovative and entrepreneurial.

HIGHLIGHTS

Essay Writing Contest - Students who participated in the Essay Writing Competition were asked to express their opinions on the topic of "Most Innovative Breakthroughs". Participants were urged to share innovative ideas about how entrepreneurship and innovation may propel India's advancement in a number of fields, such as sustainability, technology, healthcare, and education. Students were given the opportunity to explore important topics, offer creative answers, and imagine a time when India is a developed country by 2047 thanks to this competition. These programs complement national initiatives, such as the Viksit Bharat Essay Competition, which aim to involve young people in the nation's developmental agenda.

Poster Making Competition - Participants in the Poster Making Competition were invited to express their creativity on "Recent Innovations in Science, Technology and Engineering" by creating posters that graphically reflected their knowledge of entrepreneurship and innovation. Through their artwork, students emphasized sustainable development objectives and future notions, successfully conveying difficult themes in an approachable and captivating way. Their artistic abilities were refined by this exercise, which also helped them better understand how creative ideas might be used to solve urgent societal issues. Similar contests, like those that highlight creative solutions for a sustainable future, have been crucial in encouraging students to solve problems creatively and with an understanding of the environment.

Recognition and Rewards - Top performers in both categories received presents and certificates to recognise and support their efforts. Students were inspired to learn more about innovation and entrepreneurship as a result of this distinction. Acknowledging students' accomplishments encourages a culture of excellence and aspiration in addition to celebrating their hard work. Receiving such recognition can greatly increase one's sense of self-worth and encourage peers to pursue related activities. Institutions of higher learning have discovered that organized recognition initiatives increase student involvement and promote achievement.

Refreshments for Participants - Refreshments were given to everyone in attendance, creating a friendly environment and encouraging friendship amongst youngsters from various backgrounds. It has been demonstrated that providing food at events increases participation and fosters a friendly atmosphere. Sharing meals promotes casual conversations, enabling people to connect, exchange ideas, and create bonds outside of scheduled events. This approach is in line with the knowledge that group meals can improve the overall event experience and fortify ties within the community.

Impact and Key Learnings - Students' interest in innovation and entrepreneurship was successfully piqued by the event. It improved their ability to think critically, be creative, and solve problems—all of which are vital for both career and personal development. In keeping with the "Viksit Bharat @2047" vision, the program also ingrained a sense of duty to contribute to the growth of the country. The government's dedication to fostering an inclusive entrepreneurial ecosystem via training and education is demonstrated by this effort.

Conclusion - The Innovation and Entrepreneurship Outreach program exemplified the commitment of the Institution of Innovation Council, Shyam Lal College, to foster a culture of innovation and entrepreneurship among the youth. By providing a platform for young minds to explore and express their ideas, the event contributed significantly towards building a self-reliant and developed India by 2047.

Acknowledgment -

We extend our heartfelt gratitude to PM Shri Kendriya Vidyalaya, Shahdara, for their unwavering support in hosting the event. Special thanks to all participants, faculty members, and organizers for their dedication and effort in making this initiative a resounding success. Together, we are paving the way for a brighter and more innovative future for India.
