

Lecture on
'Green Chemistry: An essential building block for sustainable development'

This is hereby reported that a lecture was organized on '**Green Chemistry: An essential building block for sustainable development**' by Shyam Lal College, University of Delhi under the aegis of DBT Star College Scheme in collaboration with IQAC on **6th February 2023** in Lecture Theatre, SLC. **Dr. Indu Tucker Sidhwani**, Associate Professor (Ex Faculty) Gargi College, University of Delhi, was the keynote speaker of the day. She talked about the importance of Green Chemistry for sustainable development. The lecture was followed by a 2-day workshop on Green Chemistry where the students were given hands-on-experience on extracurricular experiments. More than 100 students and faculty members attended the lecture and 25 students were given training in Chemistry lab. All the participants found the lecture to be very useful and informative and were highly satisfied with the ideas and concepts so presented. For this overwhelming success, the organizers are very thankful to **Prof. Rabi Narayan Kar** (Principal, SLC) and **Dr. Kusha Tiwari** (Coordinator IQAC) for their support and guidance throughout the organization of this event.
