

SLC (UNIVERSITY OF DELHI) **SHYAM LAL COLLEGE**

ENACTUS

Enactus at YUVASPANDANA, SLC

On **28th March 2025**, the **Entrepreneurship Cell of Shyam Lal College** organized its flagship event, **YuvaSpandana 2025**, bringing together student innovators and entrepreneurial ventures from across the college. As part of this vibrant initiative, **Enactus Shyam Lal College** set up a stall to present its socially impactful projects and sustainable products developed under its key initiatives.

The Enactus team displayed a diverse range of handmade and eco-conscious products crafted through its three main projects — **Pawshaak**, **Sahajsmita**, and **Swarnkriti**. The stall featured **environment-friendly jute bags, dog clothes and accessories, files and folders, and bamboo toothbrushes and combs** all created to promote sustainable living and community empowerment.

The stall drew an encouraging response from students, faculty members, and visitors throughout the event. Attendees showed genuine interest in the products as well as the stories behind them — how they were made, who made them, and the impact their purchase would create. The team successfully recorded **sales worth ₹1,500**, which will be reinvested into the projects to further support the communities involved.

The initiative received widespread appreciation from the college faculty and was **personally acknowledged by the principal**, who praised the creativity, professionalism, and dedication shown by the Enactus team. The positive feedback and encouragement added immense value to the experience and motivated the team to continue its mission with greater enthusiasm.

Participating in YuvaSpandana 2025 allowed Enactus SLC to not only promote its products but also spark meaningful conversations around **social entrepreneurship, sustainability, and youth-driven change**. The event proved to be a powerful platform for outreach and learning, reinforcing the belief that small actions, when driven with purpose, can lead to significant impact.
