Teaching Plan (January-May 2024)

B.A (H) Political Science III Year 2023-24

Semester-VI

Course Objective:

This course provides a theoretical and practical understanding of the concepts and methods that can be employed in the analysis of public policy. It uses the methods of political economy to understand policy as well as understand politics as it is shaped by economic changes. The course will be useful for students who seek an integrative link to their understanding of political science, economic theory and the practical world of development and social change.
